Who are the hunter gatherers of Southern Africa?

You may be under the impression that there are no more hunter gatherers living today. But there are! All over the world, in every country from Brazil to Australia, you will still find people living as hunter gatherers. This way of living is hundreds of thousands of years old. Imagine that! Living the exact same way as someone did during the time when fire was first discovered.

The hunter gatherers of Southern Africa are people known as the San and Khoi-Khoi. Archeologists have estimated that hunter-gatherers have been around in Southern Africa for approximately 11 000 years. The name "San" comes from the Khoi-Khoi word "Saan", which means 'people who gather wild food' or 'people without any cattle'. In South Africa we use the name "San" to describe the indigenous people of Southern Africa who live or used to live by hunting and gathering.

Did you know that the European settlers had many names for the hunter gatherers? These included Bosjesman, Soequa, Bushmen, 'Sanwa' or 'Basanwa', and 'Twa'.

Through archaeological research and San oral history or storytelling we know that there were a lot of San groups living in the Southern Kalahari. Archeologists believe that the San were the descendants of the original homo sapiens who had lived in South Africa for at least 150 000 years. That must be one very long and big family tree!
