particular **Enterprise Resource Planning and Supply Chain Management** Karl E. Kurbel, 2013-08-23 This book is about running modern industrial enterprises with the help of information systems Enterprise resource planning ERP is the core of business information processing An ERP system is the backbone of most companies information systems landscape All major business processes are handled with the help of this system Supply chain management SCM looks beyond the individual company taking into account that enterprises are increasingly concentrating on their core competencies leaving other activities to suppliers With the growing dependency on the partners effective supply chains have become as important for a company's success as efficient in-house processes This book covers typical business processes and shows how these processes are implemented Examples are presented using the leading systems on the market SAP ERP and SAP SCM In this way the reader can understand how business processes are actually carried out in the real world **SAP Fico** Barkat ALI, 2017-03-10 This is a Practical how to do book which guides you to become expert in End User Implementation and Post Implementation Audit of SAP R 3 of FICO The Functional Module of SAP R 3 FICO is the Backbone of all the other Modules The FI and CO modules help amplify functionality and features through application of customizing the system to meet accounting financial planning and reporting needs in an organization This book takes you through step by step guide on Implementation of SAP FICO module with Precise conceptual explanation and Guided Screenshots Once the steps in implementation are finished it is necessary to ensure that all the activities are performed in accordance As such the book provides in guided steps by step approach to verify the same which we call it as SAP FICO Audit Process The post implementation or SAP FICO Audit Comprises of a widespread listing of important business process perils along with commonly acknowledged information technology objectives and recommended regulators to meet the objectives Finally a set of step by step functions performed by End User exercise are provided for practice The Book is Unique in the sense that it deals with all three types of training needed for a SAP FICO Professional Without having a clear idea of Settings in FICO other Modules Learning is ineffective The book provides Implementation guidance through Explanation of why each task is performed and the key tables in SAP associated with each step What you will learn 1 The Book Initially takes you through Logistics Management which is the base of all Business Process and since almost everything comes under Logistics 2 Further It Gives You Clear Understanding of ERP and ALL the SAP functionalities available in simple layman's Language 3 Provides you with a virtual firm's SAP R 3 FICO Step by Step Full Implementation Guide 4 Most of the Materials do not help you in implementation in a sequential method This book carries you with a sequential step such as in a particular order 5 The Book also helps you to practice exercise at end of almost every session 6 Most of the tutorials that exist in online do not explain the concepts 7 It guides you with End User Training in FICO POST IMPLEMENTATION SAMPLE Control Objective Company codes employed in the system should be set to productive Control Description In case of post go live actions there are some configurations that must be turned on to replicate that the SAP system is active for use and to protect the data that has been

transferred to the production system In a normal SAP recommends the functioning company codes should be marked as productive as soon as the implementation happens This configuration specifies and endorses the active status of the company code and by default would limit the unsanctioned changes comprising data deletion in the production server Risk Here the risk is mistaken deletion of master transactional data which will unfavorably influence the system reliability Test Steps Here we check the global company code configuration to confirm if the appropriate company codes are marked as Productive For This Follow Step 15 1 1 We can see that Company code B100 is not Productive as such to make it productive follow the steps in 15 1 2
