## **Incarnation Une Philosophie De La Chair:**

**Incarnation** Michel Henry, 2000 M Henry prolonge et approfondit la phénoménologie de la vie qui faisait l'objet de ses précédents livres en particulier de *C'est moi la vie* Il fait aussi une relecture critique de la tradition phénoménologique de Husserl Merleau Ponty Kierkegaard's International Reception Jon Stewart, 2009 Tome I covers the reception of Kierkegaard in Northern and Western Europe The articles on Denmark Norway Sweden Finland and Iceland can be said to trace Kierkegaard's influence in its more or less native Nordic Protestant context Since the authors in these countries with the exception of Finland were not dependent on translations or other intermediaries this represents the earliest tradition of Kierkegaard reception The early German translations of his works opened the door for the next phase of the reception which expanded beyond the borders of the Nordic countries The articles in the section on Western Europe trace his influence in Great Britain the Netherlands and Flanders Germany and Austria and France All of these countries and linguistic groups have their own extensive tradition of Kierkegaard reception **Phenomenology of Life - From the Animal Soul to the Human Mind** Anna-Teresa Tymieniecka, 2007-08-14 The challenge presented by the recent tendencies to naturalize phenomenology on the basis of the progress in biological and neurological sciences calls for an investigation of the traditional mind body problem The progress in phenomenological investigation is up to answering that challenge by placing the issues at stake upon a novel platform that is the ontopoiesis of life Michel Henry Jeffrey Hanson, Michael R. Kelly, 2012-02-09 Michel Henry 1922 2002 was a French philosopher and novelist whose work spanned decades and genres while remaining united by a singular vision In this specially commissioned collection eight internationally recognized experts on Henry's thought investigate his profound acquaintance with the mystery of life which he understood as the irreducible bedrock of all reality in its self-manifestation under the rubrics of phenomenological experience religion and praxis Each chapter investigates a different aspect of Henry's remarkable range of thought focusing on his special relevance to debates on the relationship of phenomenology and theology as well as to contemporary radical discourses on embodiment and immanence politics and theory Henry's phenomenology of life is both deep and demanding and its relevance to the topics under examination in this book cannot be denied This collection represents the first sustained effort in coming to an understanding of just how far and wide that relevance reaches It will not only spark a resurgence in Henry studies but resonate within that sphere for many years to come An Actology of the Given Malcolm Torry, 2023-08-03 An actology introduced by the first book in this series Actology Action Change and Diversity in the Western Philosophical Tradition is a conceptual structure characterized by action change and diversity and that envisages reality as action in changing patterns The previous book in this series Actological Readings in Continental Philosophy reads a number of continental philosophers through this lens This new book An Actology of the Given takes a somewhat different approach it explores the concepts of the gift givenness giving and other cognates in the light of reality understood as action in patterns rather than as beings that change and it does so by

discussing some anthropology the writings of a number of continental philosophers biblical texts social policy and a variety of other givens A Philosophy of the Unsayable William Franke, 2014-03-30 In A Philosophy of the Unsayable William Franke argues that the encounter with what exceeds speech has become the crucial philosophical issue of our time He proposes an original philosophy pivoting on analysis of the limits of language The book also offers readings of literary texts as poetically performing the philosophical principles it expounds Franke engages with philosophical theologies and philosophies of religion in the debate over negative theology and shows how apophaticism infiltrates the thinking even of those who attempt to deny or delimit it In six cohesive essays Franke explores fundamental aspects of unsayability In the first and third essays his philosophical argument is carried through with acute attention to modes of unsayability that are revealed best by literary works particularly by negativities of poetic language in the oeuvres of Paul Celan and Edmond Jab s Franke engages in critical discussion of apophatic currents of philosophy both ancient and modern focusing on Hegel and French post Hegelianism in his second essay and on Neoplatonism in his fourth essay He treats Neoplatonic apophatics especially as found in Damascius and as illuminated by postmodern thought particularly Jean Luc Nancy s deconstruction of Christianity In the last two essays Franke treats the tension between two contemporary approaches to philosophy of religion Radical Orthodoxy and radically secular or Death of God theologies A Philosophy of the Unsayable will interest scholars and students of philosophy literature religion and the humanities This book develops Franke s explicit theory of unsayability which is informed by his long standing engagement with major representatives of apophatic thought in the Western tradition

**Embodiment** Ramona Fotiade, David Jasper, Olivier Salazar-Ferrer, 2016-05-06 This book examines a number of landmark shifts in our account of the relationship between human and divine existence as reflected through the perception of time and corporeal experience Drawing together some of the best scholars in the field this book provides a representative cross section of influential trends in the philosophy of religion e g phenomenology existential thought Biblical hermeneutics deconstruction that have shaped our understanding of the body in its profane and sacred dimensions as site of conflicting discourses on presence and absence subjectivity and the death of the subject mortality resurrection and eternal life

**Michel Henry's Practical Philosophy** Jeffrey Hanson, Brian Harding, Michael R. Kelly, 2021-12-16 Providing theoretical and applied analyses of Michel Henry s practical philosophy in light of his guiding idea of Life this is the first sustained exploration of Henry s practical thought in anglophone literature reaffirming his centrality to contemporary continental thought This book ranges from the tension between his methodological insistence on life as non intentional and worldly activities to Henry s engagement with the practical philosophy of intellectuals such as Marx Freud and Kandisky to topics of application such as labor abstract art education political liberalism and spiritual life An international team of leading Henry scholars examine a vital dimension of Henry s thinking that has remained under explored for too long John the Theologian and his Paschal Gospel John Behr, 2019-03-20 This study brings three different kinds of readers of the Gospel of

John together with the theological goal of understanding what is meant by Incarnation and how it relates to Pascha the Passion of Christ how this is conceived of as revelation and how we speak of it The first group of readers are the Christian writers from the early centuries some of whom such as Irenaeus of Lyons stood in direct continuity through Polycarp of Smyrna with John himself In exploring these writers John Behr offers a glimpse of the figure of John and the celebration of Pascha which held to have started with him The second group of readers are modern scriptural scholars from whom we learn of the apocalyptic dimensions of John's Gospel and the way in which it presents the life of Christ in terms of the Temple and its feasts With Christ's own body finally erected on the Cross being the true Temple in an offering of love rather than a sacrifice for sin An offering in which Jesus becomes the flesh he offers for consumption the bread which descends from heaven so that incarnation is not an event now in the past but the embodiment of God in those who follow Christ in the present The third reader is Michel Henry a French Phenomenologist whose reading of John opens up further surprising dimensions of this Gospel which yet align with those uncovered in the first parts of this work This thought provoking work brings these threads together to reflect on the nature and task of Christian theology The Metamorphosis of Finitude Emmanuel Falque, 2014-05-01 This book starts off from a philosophical premise nobody can be in the world unless they are born into the world It examines this premise in the light of the theological belief that birth serves or ought to serve as a model for understanding what resurrection could signify for us today After all the modern Christian needs to find some way of understanding resurrection and the dogma of the resurrection of the body is vacuous unless we can relate it philosophically to our own world of experience Nicodemus first posed the question How can anyone be born after having grown old Can one enter a second time into the mother's womb and be born This book reads that problem in the context of contemporary philosophy particularly the thought of Husserl Heidegger Sartre Merleau Ponty and Deleuze A phenomenology of the body born from below is seen as a paradigm for a theology of spiritual rebirth and for rebirth of the body from on high The Resurrection changes everything in Christianity but it is also our own bodies that must be transformed in resurrection as Christ is transfigured And the way in which I hope to be resurrected bodily in God in the future depends upon the way in which I live bodily today **Phenomenology and Intercultural Understanding** Kwok-Ying Lau, 2016-09-29 This book approaches the topic of intercultural understanding in philosophy from a phenomenological perspective It provides a bridge between Western and Eastern philosophy through in depth discussion of concepts and doctrines of phenomenology and ancient and contemporary Chinese philosophy Phenomenological readings of Daoist and Buddhist philosophies are provided the reader will find a study of theoretical and methodological issues and innovative readings of traditional Chinese and Indian philosophies from the phenomenological perspective The author uses a descriptive rigor to avoid cultural prejudices and provides a non Eurocentric conception and practice of philosophy Through this East West comparative study a compelling criticism of a Eurocentric conception of philosophy emerges New concepts and methods in intercultural

philosophy are proposed through these chapters Researchers teachers post graduates and students of philosophy will all find this work intriguing and those with an interest in non Western philosophy or phenomenology will find it particularly engaging

Comment penser la Résurrection François Gachoud, 2016-07-08 Il y a ceux qui y croient et ceux qui n'y croient pas O est la vrit Laissons la question ouverte pour l'aborder d'un point de vue philosophique Comment peut-on penser la résurrection Que dévoile cet événement du pouvoir de la vie Comment interpréter ce phénomène en le considérant selon les textes Qu'en disent les témoins Pourquoi les disciples du Christ sont-ils passés du doute à la certitude S'ils l'ont reconnu vivant que s'est-il vraiment passé et que peut-on en dire Que dire du statut de ce corps glorieux et de sa manifestation charnelle Si le Christ est vraiment ressuscité qu'est-ce que cela change dans notre rapport à la vie et à la mort François Gachoud tente ce pari tout en sachant que la part de mystère qu'il implique dépasse toute démonstration

**Poésie et philosophie** Anne Mounic, 2017-09-04 Following the footsteps of Spanish philosopher Maria Zambrano Anne Mounic explores the relationships between poetry and philosophy trying to understand why Plato dismissed poets from his Republic and thus drew an enduring dividing line between reason and myth reason and imagination Various instances of poetic dissidence are analysed from a poet's viewpoint and the connections between existential philosophy and poetry are highlighted From Kierkegaard to Lequier via Shestov the common ground is the attention to the beginning the act of subjective consciousness shaping time and opening toward the future and freedom Works by various poets are discussed A la suite de certaines analyses de la philosophe espagnole Maria Zambrano Anne Mounic explore les relations entre poésie et philosophie s'interrogeant sur les raisons du rejet des poètes par Platon qui dissocia ainsi durablement la raison du mythe la raison de l'imagination Des exemples variés de dissidence poétique sont analysés du point de vue du poète et les liens entre philosophie existentielle et poésie sont mis en relief De Kierkegaard à Lequier en passant par Chestov le point commun est l'attention portée au commencement l'acte de la conscience réflexive modelant le temps ouvrant l'avenir et fondant la liberté Les œuvres de nombreux poètes sont envisagées

**Heavenly Bodies** Sigurdson, 2016 Deep and wide study of 2 000 years of Christian thought on the human body Does Christianity scorn our bodies Friedrich Nietzsche thought so and many others since him have thought the same Ola Sigurdson contends to the contrary that Christianity understood properly in fact affirms human embodiment Presenting his constructive contributions to theology in relation to both historical and contemporary conceptions of the body Sigurdson begins by investigating the anthropological implications of the doctrine of the incarnation He then delves into the concept of the gaze and discusses a specifically Christian gaze of faith that focuses on God embodied in Jesus Finally he weaves these strands into a contemporary Christian theology of embodiment Sigurdson's profound engagement with the whole history of Christian life and thought not only elucidates the spectrum of Christian perspectives on the body but also models a way of thinking historically and systematically that other theologians will find stimulating and challenging
