 Practices in UK Manufacturing* David Dugdale,2005-11-15 This report investigates the presentation and analysis of financial
 information in 41 UK Manufacturing companies Traditional and contemporary accounting techniques are exemplified in the
 case studies With old and new techniques explored the research shows that there is little that is new in management
 accounting theory and practice The study concludes that there is not one set of practices which all should follow Cima
 research report reveals methods currently used for reporting financial information in UK manufacturing companies Based on
 41 companies it shows a rich diversity of reporting practices that are constrained neither by the financial accounting
 requirements of SSAP9 nor by any sense of general management accounting trends Financial Directors choose from a toolkit
 of traditional and contemporary practices in constructing reporting systems appropriate to their varied commercial needs but
 with a strong leaning towards contribution margin approaches **Fundamental Akuntansi: Konsep, Analisis dan
