

Passage

Passage (Questions 8-12)

While the field of mental health has traditionally focused on pathology, researchers in positive psychology have begun to investigate the means by which individuals thrive in human beings. Instead of focusing on deficits, these innovators have turned their attention to ways in which an individual's strengths can be harnessed so that they may live deeply fulfilling lives. Increasingly, positive psychologists have been developing evidence-based treatments that apply positive psychological principles to mental health disorders.

One such study focused on the efficacy of positive psychology interventions in the treatment of depressive disorders. First, individuals were assessed using the Beck Depression Inventory II (BDI-II) to select participants experiencing moderate depression. These individuals were randomly assigned to one of four groups and given a specific intervention to complete over the course of one week. Each participant was then reassessed with the BDI-II after the intervention was completed and then again after one month and three months.

Members of the placebo group were instructed to write about their childhood daily for one week. Individuals in the "gratitude visit" group were given one week to write and deliver a thank-you letter to a benefactor who had never been thanked for their actions. Individuals in the "three good things" group were instructed to record three things that went well for them each day for one week. Finally, those assigned to the "you at your best" group wrote about a period in which they were functioning at peak performance levels and then reflected on the strengths that they showed during that time period each night for one week. The results of the experiment are shown in Figure 1.

The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. The Secret History is a masterful and thrilling novel that will keep you wondering until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
