Kuccps Cut Off Points In Kenya:

Higher Education Leadership and Governance in the Development of the Creative and Cultural Industries in Kenya Emily Akuno, Otoyondieki, 2017-05-05 The role of higher education in establishing structures and procedures in society and industry is clearly articulated in scholarly discussions. The narrative has recently taken a new momentum in Kenya with acknowledgement of the creative industry involving many youth as an area that impacts on the economy. In unravelling the link between higher education and industry, the authors focus on leadership and governance in higher education and its expected and perceived contribution to the shaping of the creative industry. Through analysis of cases, the authors interrogate the processes and structures that govern the teaching and practice of the creative subjects, noting how these affect the creative industry in Kenya. This document approaches the creative disciplines from the perspectives of the students, lecturers, and university administrators. The three voices provide a balanced view of what higher creative arts education in Kenya is. The multiple authorship of the book further provides a balanced account of the development of these disciplines in higher education and their growth in industry. The key concepts here are the development of the creative industry and how higher education should contribute to the same.

Equality in Kenya's 2010 Constitution Victoria Miyandazi, 2021-02-25 This book makes a significant contribution to the ongoing global conversations on the various understandings of equality. It illuminates the many ways in which diverse equality guarantees clash or are interrelated. It also sets out principled approaches on how they can be coherently interpreted to address the myriad inequalities in Kenya. Taking a comparative approach, the book considers how other jurisdictions including the United States, United Kingdom, Canada, South Africa, India, and Botswana have approached the conceptualisation, interpretation, and application of various equality concepts. The book focuses on important issues such as transformative constitutionalism in relation to the interpretation of Kenya's 2010 Constitution, expanding the list of enumerated grounds for non-discrimination, affirmative action, accommodating religious and cultural diversity versus gender equality, the interrelation between socio-economic rights and status-based equality.

Facing Forward Sajitha Bashir, Marlaine Lockheed, Elizabeth Ninan, Jee-Peng Tan, 2018-09-20 Facing Forward lays out a range of policy and implementation actions that are needed for countries in Sub-Saharan Africa to meet the challenge of improving learning while expanding access and completion of basic education for all. The book underscores the importance of aligning the education system to be relentlessly focused on learning outcomes and to ensuring that all children have access to good schools, good learning materials, and good teachers. It is unique in characterizing countries according to the challenges they faced in the 1990s and the educational progress they have made over the past 25 years, allowing countries in the region to learn from each other. The authors review the global literature and add to it by their extensive new analyses of multiple datasets from more than three dozen countries in the region; they integrate findings about what affects children's learning, their access to schooling, and progress through basic education. The book draws lessons from

the region and for the region about what works and what is needed to better implement what is known to have worked The book examines four areas to help countries better align their systems to improve learning 1 completing the unfinished agenda of reaching universal basic education with quality 2 ensuring effective management and support of teachers 3 targeting spending priorities and budget processes on improving quality and 4 closing the institutional capacity gap It concludes with an assessment of how future educational progress may be affected by projected fertility rates and economic growth
