

Install Linux Mint

The live session

When you boot the computer from the USB stick (or DVD), Linux Mint starts a `live session`. It logs you in automatically as a user called `mint` and shows you a desktop with the installer on it:

The Linux Mint live session

The `live session` is similar to a normal session (i.e. to Linux Mint once it is permanently installed on the computer), but with the following exceptions:

- The Live session is slower (it is loaded from a USB stick or DVD as opposed to a SSD or HDD).
- Changes you make in the live session are not permanent. They are not written to the USB stick (or DVD) and they do not impact the system installed by the installer.
- Some applications work differently (or not at all) in the live session (Timeshift, Flatpak, Update Manager, Welcome Screen..etc.).

Hint

The username for the live session is `mint`. If asked for a password press Enter.
