*X-kit FET Grade 11 Mathematical Literacy* Derek Swart, 2006      *X-kit FET Grade 12 MATHEMATICAL LITERACY* Derek Swart, 2009      **X-kit FET Grade 10 Mathematical Literacy**, 2006      *Educational Assessment in a Time of Reform* Coert Loock, Vanessa Scherman, 2019-11-20

*Educational Assessment in a Time of Reform* provides background information on large scale examination systems more generally and the South African examination specifically. It traces the reforms in the education system of South Africa since 1994 and provides a description of the advances in modern test theory that could be considered for future standard setting endeavours. At the heart of the book is the debate on whether the current standard of education in Africa is good enough. If not then how can it be improved. The aim of this book is to provide a point of departure for discussions on standard setting, quality assurance, equating of examinations and assessment approaches. From this point of departure, recommendations for practices in general and the exit level Grade 12 examination results in particular can be made. This book is ideal reading for principals, teachers, academics and researchers in the fields of educational assessment, measurement and evaluation.

**Resources in Education**, 2001      **Mathematical Modelling Education and Sense-making** Gloria Ann Stillman, Gabriele Kaiser, Christine Erna Lampen, 2020-05-14

This volume documents on-going research and theorising in the sub-field of mathematics education devoted to the teaching and learning of mathematical modelling and applications. Mathematical modelling provides a way of conceiving and resolving problems in people's everyday lives as well as sophisticated new problems for society at large. Mathematical modelling and real world applications are considered as having potential for cultivating sense-making in classroom settings. This book focuses on the educational perspective, researching the complexities encountered in effective teaching and learning of real world modelling and applications for sense-making is only beginning. All authors of this volume are members of the International Community of Teachers of Mathematical Modelling (ICTMA), the peak research body into researching the teaching and learning of mathematical modelling at all levels of education from the early years to tertiary education as well as in the workplace.

Research in Education, 1973      **Encyclopedia of Primary Education** Denis Hayes, 2009-12-04

Unique in its field, the *Encyclopedia of Primary Education* brings together a wide-ranging body of information relating to current educational practice in a single indispensable volume. This book provides a series of descriptions, definitions and explanations that engage with important practical and conceptual ideas in primary education and contains over 500 entries incorporating Curriculum subjects, themes and topics, Theories, policies and educational controversies, Pedagogical terms relating to teaching and learning, Commentaries on current issues in primary education, Influential figures in education both past and present, The impact of educational research on policy and practice. Based on the author's extensive experience in primary education, entries combine an interrogation of educational concepts with the pedagogical and practical implications for classroom practice, children's learning and school management. This handy reference work will be invaluable to anyone currently

teaching or training to teach at primary level teaching assistants school governors and parents In fact it is essential reading for anyone with an interest and passion for primary education      Research for Educational Change Jill Adler,Anna Sfar,2016-06-17 Research for Educational Change presents ways in which educational research can fulfil its commitments to educational practice Focussing its discussion within the context of mathematics education it argues that while research generated insights can have beneficial effects on learning and teaching the question of how these effects are to be generated and sustained is far from evident The question of how to turn research into educational improvement is discussed here in the context of learning and teaching hindered by poverty and social injustice In the first part of the book four teams of researchers use different methodologies while analysing the same corpus of data collected in a South African mathematics classroom In the second part each of these teams makes a specific proposal about what can be done and how so that its research generated insights have a tangible beneficial impact on what is happening in mathematical classrooms Combining two discourses that of researchers speaking to one another and that of researchers communicating their insights to those responsible for educational practice the book deals with the perennial question of communication between those who study educational processes and those who are directly responsible for teacher education educational research and classroom practices This book will be key reading for postgraduates researchers and academics in education and particularly in the areas of mathematics education education research teacher education and classroom practice It will also appeal to teacher educators practitioners and undergraduate students interested in educational research      Teaching Learners with Visual Impairment Maximus M.
