Everything on earth is made of matter.

**Matter is everywhere!**

There are 3 states of matter.

Students need to be able to name the three states and give an example of each!

| Solid                                                                                                     | Liquid                                                                                                     | Gas                                                                                                         |
|-----------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------|
| A solid has its own shape.                                                                                | Liquids do not have a shape. They take the shape of their container.                                       | Gases have no shape. They fill the container they are in.                                                   |
