**Anaerobic Treatment of Mine Wastewater for the Removal of Selenate and its Co-Contaminants** Lea Chua Tan,2018-09-03 Selenium Se pollution has led to several cases of severe aquatic ecosystem deterioration due to Se poisoning caused by bioaccumulation over time However the removal of selenate  $\text{SeO}_4^{2-}$  from wastewater streams with co contaminants has been largely considered as a black box in anaerobic biological systems using mixed consortia This research

aimed at addressing the effect of wastewater characteristics i.e. co-contaminants such as nitrate NO<sub>3</sub> and sulfate SO<sub>4</sub><sup>2-</sup> heavy metals and pH on the biological reduction of SeO<sub>4</sub><sup>2-</sup> and evaluating process integration for Se laden wastewater treatment with co-contaminants. This study demonstrated that the presence of co-contaminants can actually be beneficial for Se removal provided that the concentrations are carefully monitored and appropriate operating conditions and process configurations are used. The Se removal total Se and SeO<sub>4</sub><sup>2-</sup> efficiency increased by 30% in the presence of NO<sub>3</sub> and/or SO<sub>4</sub><sup>2-</sup> compared to systems with SeO<sub>4</sub><sup>2-</sup> alone. Additionally, an integrated process of an ion exchange IX column and bioreactors showed improved overall removal capacity for SO<sub>4</sub><sup>2-</sup> and total Se. The knowledge and information gained from this research can help in the advancement and application of biological processes i.e. predicting of reactor performance solving specific design or practical problems and implementing novel treatment techniques for Se laden mine wastewater.

**Military Applications of Data Analytics** Kevin Huggins, 2018-10-09 Military organizations around the world are normally huge producers and consumers of data. Accordingly, they stand to gain from the many benefits associated with data analytics. However, for leaders in defense organizations, either government or industry, accessible use cases are not always available. This book presents a diverse collection of cases that explore the realm of possibilities in military data analytics. These use cases explore such topics as Context for maritime situation awareness, Data analytics for electric power and energy applications, Environmental data analytics in military operations, Data analytics and training effectiveness evaluation, Harnessing single board computers for military data analytics, Analytics for military training in virtual reality environments. A chapter on using single board computers explores their application in a variety of domains including wireless sensor networks, unmanned vehicles and cluster computing. The investigation into a process for extracting and codifying expert knowledge provides a practical and useful model for soldiers that can support diagnostics, decision making, analysis of alternatives and myriad other analytical processes. Data analytics is seen as having a role in military learning and a chapter in the book describes the ongoing work with the United States Army Research Laboratory to apply data analytics techniques to the design of courses, evaluation of individual and group performances and the ability to tailor the learning experience to achieve optimal learning outcomes in a minimum amount of time. Another chapter discusses how virtual reality and analytics are transforming training of military personnel. Virtual reality and analytics are also transforming monitoring, decision making, readiness and operations. *Military Applications of Data Analytics* brings together a collection of technical and application oriented use cases. It enables decision makers and technologists to make connections between data analytics and such fields as virtual reality and cognitive science that are driving military organizations around the world forward.

*Communications, Signal Processing, and Systems* Qilian Liang, Wei Wang, Xin Liu, Zhenyu Na, Xiaoxia Li, Baoju Zhang, 2021-06-07 This book brings together papers presented at the 2020 International Conference on Communications, Signal Processing and Systems, which provides a venue to disseminate the latest developments and to discuss the interactions and links between these multidisciplinary fields. Spanning topics ranging

from communications signal processing and systems this book is aimed at undergraduate and graduate students in Electrical Engineering Computer Science and Mathematics researchers and engineers from academia and industry as well as government employees such as NSF DOD and DOE Bringing Criminological Theory to Life Emily Turner,Rose Broad,Caroline Miles,Shadd Maruna,2025-08-14 Taking a unique approach to bring the theories of desistance and of development criminology to life the chapters in this book are framed around a single individual s life story which have inspired rigorous evidence based and scholarly chapters on key issues in criminology Killer Apps Jeremy Packer,Joshua Reeves,2020-02-28 In Killer Apps Jeremy Packer and Joshua Reeves provide a detailed account of the rise of automation in warfare showing how media systems are central to building weapons systems with artificial intelligence in order to more efficiently select and eliminate military targets Drawing on the insights of a wide range of political and media theorists Packer and Reeves develop a new theory for understanding how the intersection of media and military strategy drives today s AI arms race They address the use of media to search for enemies in their analyses of the history of automated radar systems the search for extraterrestrial life and the development of military climate science which treats the changing earth as an enemy As the authors demonstrate contemporary military strategy demands perfect communication in an evolving battlespace that is increasingly inhospitable to human frailties necessitating humans replacement by advanced robotics machine intelligence and media systems *Professional Journal of the United States Army* ,2009-11 *Counter-Insurgency in Nigeria* Akali Omeni,2017-09-08 This book offers a detailed examination of the counter insurgency operations undertaken by the Nigerian military against Boko Haram between 2011 and 2017 Based on extensive fieldwork conducted with military units in Nigeria Counter Insurgency in Nigeria has two main aims First it seeks to provide an understanding of the Nigerian military s internal role a role that today as a result of internal threats pivots towards counter insurgency The book illustrates how organizational culture historical experience institutions and doctrine are critical to understanding the Nigerian military and its attitudes and actions against the threat of civil disobedience today and in the past The second aim of the book is to examine the Nigerian military campaign against Boko Haram insurgents specifically plans and operations between June 2011 and April 2017 Within this second theme emphasis is placed on the idea of battlefield innovation and the reorganization within the Nigerian military since 2013 as the Nigerian Army and Air Force recalibrated themselves for COIN warfare A certain mystique has surrounded the technicalities of COIN operations by the Army against Boko Haram and this book aims to disperse that veil of secrecy Furthermore the work s analysis of the air force s role in counter insurgency is unprecedented within the literature on military warfare in Nigeria This book will be of great interest to students of military studies counter insurgency counter terrorism African politics and security studies in general Federal Register ,2013-06 *Student Veteran Data in Higher Education* Kevin Eagan,Lesley McBain,Kevin C Jones,2017-05-16 While the Post 9 11 GI Bill created both a surge in student veteran enrollment at colleges and universities across the U S and keen interest by various

stakeholders in how the billions of Federal dollars are being spent higher education researchers have not historically focused on military affiliated students This special issue provides education and suggestions for institutional researchers to approach studying student veterans Presents an overview of the history of student veterans in higher education Discusses how conceptual models of veterans college experience can aid institutional researchers Delves into the nuances of the phrase student veterans commonly used for actual veteran students active duty service members National Guard members Reservists and family members using transferred educational benefits Analyzes the differences between these sub populations on factors known to influence postsecondary access and success Details data sources available to study veterans at proprietary institutions Discusses state level data issues in veterans education Summarizes key concepts and recommends further research and practice This is the 171st volume of this Jossey Bass quarterly report series Timely and comprehensive New Directions for Institutional Research provides planners and administrators in all types of academic institutions with guidelines in such areas as resource coordination information analysis program evaluation and institutional management
