The SAS Programmer's PROC REPORT Handbook Jane Eslinger, 2016-03-23 The SAS Programmer's PROC REPORT Handbook Basic to Advanced Reporting Techniques is intended for programmers of all skill levels Learn how to link multiple reports add graphics and logos and manipulate table of contents values to help refine your programs macroize where possible troubleshoot easily and get great looking reports every time From beginner to advanced the examples in this book will help you harness all the power and capability of PROC REPORT With dozens of useful examples this book is completely unique in three ways First this book describes the default behavior of table of contents nodes and labels and how to change the nodes inside of PROC REPORT The chapter also explains how to use PROC DOCUMENT in conjunction with PROC REPORT Secondly an entire chapter is dedicated to the troubleshooting of errors warnings and notes that are produced by PROC REPORT including explanations of what generated the log message and how to avoid it Third the book explains how to preprocess your data in order to get the best output from PROC REPORT and it explores reports that require multiple steps to create Whether you work in banking finance pharmaceuticals the health and life sciences or government this handbook is sure to be your new favorite reporting reference **Maximum Penalized Likelihood Estimation** Paul P.

Enggertmont, Vincent N. LaRiccia, 2009-06-02 This is the second volume of a text on the theory and practice of maximum penalized likelihood estimation It is intended for graduate students in statistics operations research and applied mathematics as well as researchers and practitioners in the field The present volume was supposed to have a short chapter on nonparametric regression but was intended to deal mainly with inverse problems However the chapter on nonparametric regression kept growing to the point where it is now the only topic covered Perhaps there will be a Volume III It might even deal with inverse problems But for now we are happy to have finished Volume II The emphasis in this volume is on smoothing splines of arbitrary order but other estimators kernels local and global polynomials pass review as well We study smoothing splines and local polynomials in the context of reproducing kernel Hilbert spaces The connection between smoothing splines and reproducing kernels is of course well known The new twist is that letting the inner product depend on the smoothing parameter opens up new possibilities It leads to asymptotically equivalent reproducing kernel estimators without qualifications and thence via uniform error bounds for kernel estimators to uniform error bounds for smoothing splines and via strong approximations to confidence bands for the unknown regression function It came as somewhat of a surprise that reproducing kernel Hilbert space ideas also proved useful in the study of local polynomial estimators *Operations and Supply Chain Management* Roberta S. Measuring Service Contract Performance Andrew P. Hunter, Gregory Sanders, 2021-04-15 Researching and manufacturing fighters ships and tanks are only part of the picture for defense contracts Contracting for services accounts for over 41 percent of DoD contract obligations in 2018 Services include maintaining equipment moving people and things creating software providing server space and construction Service contracting is challenging as services can be difficult to define and measure But services are increasingly central to the U S

economy The Department of Defense seeks to attract new firms that will increase its speed and agility many of these firms are service providers e g data analytics or cloud computing CSIS looked at a million contracts to evaluate how three factors influence performance 1 service complexity 2 contract management capacity 3 vendor s history working with a DoD contracting office The existing data fails to explain large differences in contract office performance More DoD transparency about contracting office capacity could help make a case for further investments The report also found that when vendors and contracting offices have a longer history they tend to have better results That means DoD needs to think not only about recruiting new partners but also about helping them succeed
