

1 00 Change the Battery

Before you use the unit, you are encouraged to first charge the battery for three full hours.

To charge the ForeRunner:

1. Turn the ForeRunner over and remove the weather cap from the USB port on the back of the unit.
2. Locate the AC Charger that came in the product box. Plug the mini USB end of the charger into the USB port on the unit. Then plug the AC charger into a standard wall outlet.

Back-View

Please do battery a detailed charging. Do battery charging multiple charging system.

When the battery is finished charging, you should be able to use it for about 10 hours before recharging.

You can also recharge the ForeRunner using the USB cable and your personal computer. See the Owner's Manual for more information.

2 00 Position the HR Monitor

The heart rate (HR) monitor should be worn directly on your chest just below the forearms. It should be snug enough to stay in place during your workout. When positioned correctly, the ForeRunner begins measuring heart rate data automatically, and the heart rate will change from floating to a constant rate. Do not be afraid if heart is just away from another heart rate monitor until the ForeRunner begins measuring heart rate data.

To position the heart rate monitor:

1. Push one end of the strap through the slot in the heart rate monitor. Press the red button.

2. Wrap both sensors on the back of the heart rate monitor to create a strong connection between your pulse and the transmitter.

3. Attach the strap to the other side of the heart rate monitor around your chest.
4. Tighten or loosen the strap as necessary.

NOTE: Do not reposition the heart rate monitor or start the training until the heart is light red up.

3 00 Acquire Satellite

Acquiring satellite signals may take as long as 10 minutes the first time you use the ForeRunner (or if stored for more than 1 month). For troubleshooting information, refer to the Owner's Manual.

To acquire satellite signals:

1. Go outdoors to an open area, away from tall buildings and trees. Then press and hold the Power button to turn on your ForeRunner HR.
2. Wait while the ForeRunner HR searches for satellite signals. As the unit acquires signals, the bar fills from left to right, and the Satellite icon flashes. When the ForeRunner HR has acquired enough signals, the bar fills completely and disappears, and the Satellite icon stops flashing.

(After you charge the battery and acquire satellites, you can take your ForeRunner HR outside and immediately begin your workout.)
