Gay Mythology English Edition:

Sexual Myths of Modernity Alison M. Moore, 2015-11-19 The notion of sexual sadism emerged from nineteenth century alienist attempts to imagine the pleasure of the torturer or mass killer This was a time in which sexuality was mapped to social progress so that perversions were always related either to degeneration or decadence These ideas were internalized in later Freudian views of the drives within the self and of their repression under the demands of modern European civilization Sadism was always presented as the barbarous past that lurked within each of us ready to burst forth into murderous violence crime anti-Semitism and finally genocide This idea maintained its currency in European thought after the Second World War as Freudian influenced accounts of the history of philosophy configured the Marquis de Sade as a kind of Kantian superego in a framework that viewed the Western Enlightenment as unraveled by its own inner demons In this way a straight line was imagined from the late eighteenth century to the Holocaust These ideas have had an ongoing legacy in debates about sexual perversion feminism genocide representation and historical memory of Nazism However recent genocide research has massively debunked assumptions that perpetrators of mass violence are especially sexually motivated in their cruelty This book considers how the late twentieth century imagination eroticized Nazism for its own ends but also how it has been informed by nineteenth century formulations of the idea of mass violence as a sexual problem *Myth of the Modern Homosexual* Rictor Norton, 2016-10-06 With careful reasoning supported by wide ranging scholarship this study exposes the fallacies of social constructionist theories within lesbian and gay studies and makes a forceful case for the autonomy of queer identity and culture It presents evidence that queers are part of a centuries old history possessing a unified historical and cultural identity The volume reviews the fundamental historiographical issues about the nature of queer history arguing that a new generation of queer historians will need to abandon authoritarian dogma founded upon politically correct ideology rather than historical experience Norton offers a clear exposition of the evidence for ancient indigenous and pre modern queer cultural continuity revealing how knowledge of that history has been suppressed and censored and sets out the queer cultural essentialist position on the key topics of queer history role identity bisexuality orientation linguistics social control homophobia subcultures and kinship patterns NEO-MYTHOLOGY John Schissler Jr., 2023-05-22 The author a wordsmith of the English language will demonstrate how these classical entities are actually steeped in the Greek or Latin languages Armed with that knowledge the reader will learn derivatives for English words in an easy and relateable fashion learning vocabulary minus the rote memorization of vocabulary lists This newly gained knowledge of the power of words will increase with the recognition of the root words found in the names of these gods denigods and heroes Even the significance of our modern day superheroes will also be scrutinized and so will the challenges of today's world of technology Let the adventure begin with Neo Mythology 3001 Word Odyssey Born in 1943 JOHN SCHISLER JR and his family arrived in the USA in 1950 After learning the English language from childhood Schissler went on to earn his post secondary degree in Education at the

University of Wisconsin in Milwaukee He taught high school Latin and English from 1968 to 2000 Since his retirement Schissler has written four additional books PASSAGE IMMIGRANTS FOUR_LEAF COVER and I TEACH Therefore I Can
