Computers Today & Tomorrow □ 8 Manjeet Jauhar, Dorothy Fanthome, COMPUTERS TODAY TOMORROW series consists of eight computer science textbooks for classes 1-8. This series is created to help students master the use of various kinds of software and IT tools. The books have been designed to keep pace with the latest technologies and the interests of the 21st century learners. The series is based on Windows 7 and MS Office 2007 and adopts an interactive approach to teach various concepts related to Computer Science. The books for classes 1-5 are introductory. They introduce students to the basic features of Windows 7 and MS Office 2007 starting with the history of computers, what are the basic parts of the computer, how to use Tux Paint, WordPad, MS Paint, how to program in LOGO and also give an introduction to the Internet. However, the books for classes 6-8 are for senior students and take a deep dive into the advanced features of Windows 7 and MS Office 2007 including how to do programming in QBasic, HTML and Visual Basic. Students learn to create animations using Flash and Photoshop and how to communicate using the Internet. The ebook version does not contain CD. Office and SharePoint 2010 User's Guide Michael Antonovich,2010-08-06 Web sites collaboration document management paperless offices we want it all in business today but how do we achieve all of these goals More importantly if you work for one of the millions of small to medium sized businesses how do you find the time to build the expertise necessary to reach these goals Even the most

powerful tool will not allow you to succeed unless you can get the majority of your staff to use it efficiently and effectively. You need a guide that demonstrates a platform that small to medium sized businesses can use to reach these goals. Office and SharePoint 2010 User's Guide demystifies the path that every Microsoft Office user can follow to benefit from the synergism of tools they are already familiar with. Together with SharePoint 2010 users can achieve goals like web sites with a consistent single view, improved collaboration within their organization and better document management and may even get one step closer to the paperless office we've been promised for years. This book has topics for Office users of all skill levels from those just starting to use Office tools to experienced power users. It examines each major Office tool and shows how it contributes to the support and use of SharePoint in today's increasingly electronic based office environment. [Microsoft Access 2010 In Depth](#) Roger Jennings, 2010-12-28 Access 2010 In Depth is the beyond the basics, beneath the surface guide for everyone who wants to streamline their work with Access 2010 and get more done in less time. Legendary Access expert Roger Jennings provides specific, tested, proven solutions to the problems Access database users and developers run into every day. Challenges other books ignore or oversimplify. Jennings thoroughly covers all facets of working with Access 2010 and adds new chapters on integration and collaboration with Microsoft SharePoint and emulating Table Triggers with Access Data Macros. New coverage also includes customizable Ribbon and Themes, the revamped Macro Designer, Quick Start Fields, IntelliSense support in Expression Builder, Application Parts and Navigation Forms, conditional formatting and data bars in reports and new web database publishing techniques. As with all In Depth books, Access 2010 In Depth presents comprehensive coverage, breakthrough techniques, exclusive shortcuts, quick access to information, troubleshooting help for tough problems and real world examples with nothing glossed over or left out. Step by step instructions with icons guide readers through essential tasks such as designing tables, entering data, importing external data, designing and executing queries and designing data entry forms and printed reports. Additional chapters on advanced form and report design emphasize data entry efficiency and presentation clarity. By Roger Jennings, a world renowned Access expert who has sold more than 1.25 million books.
