Advancing Supervision in Clinically Based Teacher Education Rebecca West Burns, Laura Baecher, Jennifer K. McCorvey, 2022-02-01 Supervision in teacher education is entering an exciting time In the last decade national reports calling for the transformation of teacher preparation have advocated for greater school university collaboration and increased clinical preparation of teachers AACTE 2018 NCATE 2010 Thus institutions with teacher preparation should be increasingly concerned with the clinical component of their teacher certification programs AACTE 2010 2018 NCATE 2001 NEA 2014 However supervision in teacher preparation has historically been held in low regard Beck Feiman Nemser 2001 The Holmes Group 1986 Hoover O Shea Soder Burns Jacobs Darling Hammond 2014 Gimbert Lee 2011 In fact university supervisors may be the most undervalued actors in the entire teacher preparation equation when one considers the knowledge skills and dispositions they must have to teach about teaching in the field Burns NCATE 2010 Slick 1998 Zeichner 1992 2005 These practices are incredibly problematic for actualizing clinically based teacher education Thus the road to transforming teacher education must involve addressing such long standing misperceptions about what supervision is what purpose it serves and how it can be renewed from an afterthought to become the driving engine of high quality teacher preparation **Advancing Supervision in Clinically Based Teacher Education** Advances Opportunities and Explorations aims to elevate supervision and supervisors as undervalued actors by disseminating high quality manuscripts on this critical area of study The chapters in this book tackle the persistent issue of devaluing and marginalizing supervision in some institutions of higher education by sharing current research illuminating challenges of supervising in the current high stakes accountability climate and offering innovative ideas that can improve supervision in clinically based teacher education

Rüttimann, 2019-06-18 This book goes beyond searching for Muda by Gemba walk the aim is to industrialize the office environment in view of the new digitalization challenge by applying the same principles of Lean industry Whereas the basic process theory remains valid the Lean tools have to be adapted and transposed to the office characteristics where not machines but employees are at the center of the transactions Here a new already successfully applied integrated industry derived and systematic approach is presented It will not only boost office

effectiveness and productivity as well as shortening lead time of office routines far beyond simple Muda elimination but it will also prepare the processes in view of the upcoming digitalization era **Looking to the Future** ,2010 **MacUser** ,1989
