Focus, 2nd Edition Mike Schmoker, 2018-07-16 In this 2nd edition of *Focus Elevating the Essentials to Radically Improve Student Learning* Mike Schmoker extends and updates the case that our schools could be on the cusp of swift unparalleled improvements. But we are stymied by a systemwide failure to simplify and prioritize; we have yet to focus our limited time and energy on the most essential, widely acknowledged, evidence-based practices that could have more impact than all other initiatives combined. They are simple, coherent, curricula, straightforward, traditional literacy practices and lessons built around just a few hugely effective elements of good teaching. As Schmoker demonstrates, the case for these practices and the need for them has grown prodigiously. In every chapter you will find late-breaking discoveries and practical advice on how to simplify the implementation of new state standards in the subject areas, on the hidden pitfalls of our most popular but unproven instructional fads and programs, and on simple, versatile strategies for building curriculum, planning lessons, and integrating literacy into every discipline. All of these strategies and findings are supported with exciting new evidence from actual schools. Their success confirms, as Michael Fullan writes, that a focus on the best, high-leverage practices won't only improve student performance; they will produce stunningly powerful consequences in our schools. **101 More Questions & Answers about Standards, Assessment, and Accountability** Douglas B. Reeves, 2004 Real-world questions with clear answers regarding educational topics such as grading, instruction, and best practices to ensure success for all students.

*Leading with Focus* Mike Schmoker, 2016-01-20 In his 2011 ASCD best-seller *Focus: Elevating the Essentials to Radically Improve Student Learning*, author Mike Schmoker described a fresh approach to K-12 teaching built on three core elements: a focused and coherent curriculum, clear prioritized lessons, and purposeful reading and writing or authentic literacy. Now in *Leading with Focus*, he shows administrators, principals, and other education leaders how to apply his model to the work of running schools and districts. In this companion to his previous book, Schmoker offers an overview of the case for simple, focused school and district leadership, demonstrating its power for vastly improving the work of teachers and leaders. Examples of real schools and districts that have embraced focused leadership and the incredible results for student learning. A practical, flexible, and easy-to-follow implementation guide for ensuring focused leadership in schools and districts. All students deserve to learn in schools where educators eschew distractions and superfluous activities to concentrate on what's most important. To that end, this book is an essential resource for leaders ready to streamline their practice and focus their efforts on radically improving student learning. **Focus** Michael J. Schmoker, 2011 The introduction states: "The only reason our schools haven't made astonishing progress in the last 30 years of reform is quite simple: very few schools ever implemented what is essential: the most powerful, simple actions and structures that would dramatically increase the proportion of students prepared for college or careers. What is essential for schools: Three simple things: reasonably coherent curriculum, what we teach, sound lessons, how we teach, and far more purposeful reading and writing in every discipline or

authentic literacy integral to both what and how we teach      *Accelerating Student and Staff Learning* Kay Psencik, 2009-02-27 This book brings new focus to the rich history of ideas and strategies shown to improve student learning helping educators at all levels see not only the value of using proven strategies but the importance of integrating those strategies into purposeful improvement efforts Thomas R Guskey Distinguished Service Professor Georgetown College This is a book of action The author calls for leaders in school communities to be bold courageous committed and aggressive in the actions required to achieve desired increases in student learning Charles Patterson Educational Consultant Former President Association for Supervision and Curriculum Development Dramatically raise student achievement by engaging educators in collaborative curriculum design and professional development Teachers teacher leaders principals and staff developers can build a collaborative culture and improve staff and student performance with this content focused step by step model that ties curriculum design to teacher growth Kay Psencik provides a powerful process whereby teachers work together in teams to examine standards gain a deep understanding of content create curriculum maps and design common formative assessments Professional development leaders can inspire and challenge teachers to Confront assumptions about learning and professional development Clarify and establish complex standards Embed conversations about the curriculum into daily work With hands on tools templates and resources readers can help teachers become more skilled in their instruction create a school based curriculum that is tied to standards and accelerate the learning of both students and staff      **101 Questions & Answers about Standards, Assessment, and Accountability** Douglas B. Reeves, 2001 Easy to use reference book with clear answers to today s most frequently asked questions in education today      *Results Now* Mike Schmoker, 2006-06-30 According to author Mike Schmoker there is a yawning gap between the most well known essential practices and the reality of most classrooms This gap persists despite the hard often heroic work done by many teachers and administrators Schmoker believes that teachers and administrators may know what the best practices are but they aren t using them or reinforcing them consistently He asserts that our schools are protected by a buffer a protective barrier that prevents scrutiny of instruction by outsiders The buffer exists within the school as well Teachers often know only what is going on in their classrooms and they may be completely in the dark about what other teachers in the school are doing Even principals says Schmoker don t have a clear view of the daily practices of teaching and learning in their schools Schmoker suggests that we need to get beyond this buffer to confront the truth about what is happening in classrooms and to allow teachers to learn from each other and to be supervised properly He outlines a plan that focuses on the importance of consistent curriculum authentic literacy education and professional learning communities for teachers What will students get out of this new approach Learning for life Schmoker argues passionately that students become learners for life when they have more opportunities to engage in strategic reading writing with explicit guidance and argument and discussion Through strong teamwork true leadership and authentic learning schools and their students can reach new heights Results Now is a rally cry

for educators to focus on what counts. If they do, Schmoker promises the entire school community can count on unprecedented achievements.

**ENC Focus**, 2000 *An Educator's Guide to Using Your 3 Eyes* Megan R. Sweet Ed. D., 2018-11-17 Applying intellect, insight, and intuition to promote school wide transformation for educators through interpersonal reflection and hands on tools. This is no one size fits all approach to education that provides a formula or a practical how to guide. The truths found in this book are about applying research based best practices to the processes that lie outside of academia. Readers will find themselves getting out their pens and highlighters to write in the margins and apply personal reflection to the teachings. The three Is: intellect, insight, and intuition are tools for educators to find personal growth and development inside the structure of the school system so that they can promote school wide transformation. When educators stop fighting the system and instead look inward for the answers, they will begin to see the improved student achievement and involvement they crave. Readers will walk away with greater self awareness that will improve the classroom and educational landscape around them, improved self appreciation that will fuel empathy in the classroom and workplace, clarity about the origin and influence of their beliefs that will help them combat negative beliefs and take advantage of positive beliefs, and better decision making skills developed through a contemplative approach.

**The Learning Leader** Douglas B. Reeves, 2020-08-31 We can't do that in our school district. I don't have time to add that to my curriculum. We're fighting against impossible odds with these students. Sound familiar? School improvement can often feel like a losing battle, but it doesn't have to be. In this fully revised and updated second edition of *The Learning Leader*, Douglas B.

Reeves helps leadership teams go beyond excuses to capitalize on their strengths reduce their weaknesses and reset their mindset and priorities to achieve unprecedented success A critical key is recognizing student achievement as more than just a set of test scores Reeves asserts that when leaders focus exclusively on results they fail to measure and understand the importance of their own actions He offers an alternative the Leadership for Learning Framework which helps leaders identify and distinguish among four different types of educators and provide more effective tailored support to Lucky educators who achieve high results but don't understand how their actions influence achievement Losing educators who achieve low results yet keep doing the same thing expecting different outcomes Learning educators who have not yet achieved the desired results but are working their way toward excellence Leading educators who achieve high results and understand how their actions influence their success Reeves stresses that effective leadership is neither a unitary skill nor a solitary activity The Learning Leader helps leaders reconceptualize their roles in the school improvement process and motivate themselves and their colleagues to keep working to better serve their students
