

The background of the slide features a collection of laboratory glassware, including test tubes and beakers, arranged in a rack. The liquids inside the glassware are in shades of red, orange, and yellow. The lighting is dramatic, with a strong light source from the top left creating a bright glow and casting shadows. The overall aesthetic is scientific and professional.

David Baud

Gcse Physical Science Grade11:

Mobile Learning and STEM Helen Crompton, John Traxler, 2015-12-07 In recent years there has been a renewed focus on STEM education in the United States fueled by evidence that young learners competencies in science technology engineering and mathematics are falling behind those of their global peers Scholars and practitioners are beginning to utilize the new pedagogical opportunities offered by mobile learning to improve the successes of teachers and K 12 students across STEM subjects Mobile Learning and STEM Case Studies in Practice is a comprehensive collection of case studies that explore mobile learning s support of STEM subjects and that utilize mobile technology to facilitate unique and effective K 12 teaching and learning experiences In addition to its focus on STEM achievement for researchers this volume is a resource for teachers working to implement mobile learning initiatives into their classrooms Mobile Learning and STEM also includes research that is applicable to classrooms in nations around the world where few students from underrepresented racial and socioeconomic backgrounds are entering into STEM jobs Concluding with a summary of its research and its implications to future scholarship and practice this book is a springboard for practitioners specialists higher education instructors and researchers who want to establish better practices in schools and raise student achievement in STEM subjects **England and Wales Youth Cohort Study** Yuan Cheng, Joan Payne, Sharon Witherspoon, 1995 **FCS English First Additional Language L3** Elisabeth Pilbeam, 2008 Understanding Young People's Science Aspirations Louise Archer, Jennifer DeWitt, 2016-08-12 Understanding Young People s Science Aspirations offers new evidence and understanding about how young people develop their aspirations for education learning and ultimately careers in science Integrating new findings from a major research study with a wide ranging review of existing international literature it brings a distinctive sociological analytic lens to the field of science education The book offers an explanation of how some young people do become dedicated to follow science and what might be done to increase and broaden this population exploring the need for increased scientific literacy among citizens to enable them to exercise agency and lead a life underpinned by informed decisions about their own health and their environment Key issues considered include why we should study young people s science aspirations the role of families social class and science capital in career choice the links between ethnicity gender and science aspirations the implications for research policy and practice Set in the context of widespread international policy concern about the urgent need to improve increase and diversify participation in post 16 science this key text considers how we must encourage a supply of appropriately qualified future scientists and workers in STEM industries and ensure a high level of scientific literacy in society It is a crucial read for all training and practicing science teachers education researchers and academics as well as anyone invested in the desire to help fulfil young people s science aspirations **Teaching and Learning** Charles Desforges, Richard Fox, 2008-04-15 This is the first collection of key articles on the psychology behind educational attainment It brings together in one volume for students a set of accessible but influential papers representing the best classic and

cutting edge work in the field **Physics Education and Gender** Allison J. Gonsalves, Anna T. Danielsson, 2020-04-24 This Edited Volume engages with concepts of gender and identity as they are mobilized in research to understand the experiences of learners teachers and practitioners of physics The focus of this collection is on extending theoretical understandings of identity as a means to explore the construction of gender in physics education research This collection expands an understanding of gendered participation in physics from a binary gender deficit model to a more complex understanding of gender as performative and intersectional with other social locations e g race class LGBT status ability etc This volume contributes to a growing scholarship using sociocultural frameworks to understand learning and participation in physics and that seeks to challenge dominant understandings of who does physics and what counts as physics competence Studying gender in physics education research from a perspective of identity and identity construction allows us to understand participation in physics cultures in new ways We are able to see how identities shape and are shaped by inclusion and exclusion in physics practices discourses that dominate physics cultures and actions that maintain or challenge structures of dominance and subordination in physics education The chapters offered in this book focus on understanding identity and its usefulness in various contexts with various learner or practitioner populations This scholarship collectively presents us with a broad picture of the complexity inherent in doing physics and doing gender **Really Raising Standards** Philip Adey, Dr Michael Shayer, MICHAEL Shayer, 2006-10-19 Written by experienced teachers and educational researchers Phillip Adey and Michael Shayer Really Raising Standards analyses attempts to teach children to think more effectively and efficiently Their practical advice on how to improve children s performance by the application of the findings of the CASE research project will radically alter the approach of many professional teachers and student teachers as to the education of children in schools An important contribution to the application of psychological theory in education **Effective Teachers in Secondary Schools (2nd Edition)** Tony Swainston, 2008-11-18 This updated DVD and book pack is an ideal resource for training both in schools and colleges **Good Practice In Science Teaching: What Research Has To Say** Osborne, Jonathan, Dillon, Justin, 2010-05-01 This volume provides a summary of the findings that educational research has to offer on good practice in school science teaching It offers an overview of scholarship and research in the field and introduces the ideas and evidence that guide it *Education and Training for 16-18 Year Olds in England and Wales* Joan Payne, Yuan Cheng, Sharon Witherspoon, 1996 The reform of education and training at 16 is the subject of lively debate Politicians employers teachers parents all have prescriptions This book aims to inform the debate by describing the choices that young people make within the present system and the consequences of those choices The book is based on a very large continuing survey of young people in England and Wales the Youth Cohort Study It traces the fortunes of five national cohorts who reached 16 between the mid 1980s and early 1990s following each group through their first few years after compulsory schooling

This Enthralling World of E-book Books: A Detailed Guide Revealing the Pros of Kindle Books: A World of Convenience and Flexibility Kindle books, with their inherent mobility and ease of access, have freed readers from the limitations of physical books.
