Districts are encouraged to customize this lesson by supplementing with district-approved resources, materials, and activities to best meet the needs of learners. The duration for this lesson is only a recommendation, and districts may modify the time frame to meet students' needs. (For your convenience, please find below the TEA Commissioner's List of [State Board of Education Approved Instructional Resources](#) and [Michigan State Education Materials](#).)

This lesson helps students understand Mexico's government and economy. Students learn about cultural traits in Mexico and how they are both similar to and different from the U.S. Many countries can be part of the same geographic region. Their national cultures may be very different. One area that contributes to a nation's culture is its level of economic development, which is dependent on many factors and can look very different in different countries, even when factors of production are similar. Students look at the nation's artwork and how it contributes to its culture, learning about and viewing examples of artists and their significance to Mexican culture.

The Texas Essential Knowledge and Skills (TEKS) listed below are the standards adopted by the State Board of Education, which are required by Texas law. Any standard that has a strike-through (e.g., ~~example standard~~) indicates that portion of the standard is taught in a previous or subsequent unit. The TEKS are available on the Texas Education Agency website at <http://www.tea.state.tx.us/teks/teks1448>.
