The Palgrave Handbook of Africa and the Changing Global Order Samuel Ojo Oloruntoba, Toyin Falola, 2021-11-22 This handbook fills a large gap in the current knowledge about the critical role of Africa in the changing global order By connecting the past present and future in a continuum that shows the paradox of existence for over one billion people the book underlines the centrality of the African continent to global knowledge production the global economy global security and global creativity Bringing together perspectives from top Africa scholars it actively dispels myths of the continent as just

a passive recipient of external influences presenting instead an image of an active global agent that astutely projects soft power Unlike previous handbooks this book offers an eclectic mix of historical contemporary and interdisciplinary approaches that allow for a more holistic view of the many aspects of Africa's relations with the world *The Dynamics of Changing Higher Education in the Global South* Busani Mpofu, Sabelo Ndlovu-Gatsheni, 2020-06-29 Today there are generally universities in Africa rather than African universities The legitimacy of the university in Africa is under serious questions now because of its complicity in racism patriarchy sexism colonialism capitalism genocide epistemicide linguicide culturecide and alienation In other words the university in Africa as we know it today is elitist and exclusionary Therefore rethinking the idea of the university is fundamental to overcoming its current deficiencies in the Global South This volume bringing together a number of national case studies and macro analyses on the dynamics of changing higher education in the Global South gestures towards the desired imagined decolonial African university which should be a site of multilingualism where African indigenous languages cosmologies and ontologies become a central part of its identity and soul intolerant of epistemicides linguicides and cultural imperialism but a site of cognitive and social justice that fully embraces the idea that all human beings are born into valid useful relevant and legitimate knowledge systems **Africa at the Crossroads** Artwell Nhemachena, Munyaradzi Mawere, 2017-04-11 This volume interrogates and theorises various forms of fundamentalism and fetishism that impinge on Africa and the African people The book valiantly rethinks and unpacks these forms of fundamentalisms and fetishisms offering in the process critical vistas for students scholars and activists on matters of decoloniality and transformation By meticulously and painstakingly unpacking pertinent issues the book provides unparalleled intellectual milestones and platforms for the oncoming revolution and quest for justice in the form of decoloniality and transformation Drawing from several disciplinary domains such as Development Studies Security Studies Political Anthropology and Sociology Economic Anthropology and Social studies English Studies History Philosophy and Religious Studies and drawing from scholars from across different universities in the Southern African region the book provides multiple lenses from which to understand the complex goings on in a continent that can no longer afford to simply fold hands and watch while its citizens suffer multiple forms of coloniality fetishisms and fundamentalisms Mawere: Africa, Human Rights and the Covid-19 Pa, 2023-06-02 This book makes a significant contribution by initiating debate on the state of human rights freedoms and civil liberties in the context of emergencies such as pandemics in general and Covid 19 in particular It is without doubt that as the world was preoccupied with combating the Covid 19 pandemic issues of rights freedoms and liberties in the context of this struggle increasingly came under close scrutiny *From #RhodesMustFall Movements to #HumansMustFall Movements* Artwell Nhemachena, Jairo Kangira, 2021-05-14 Might it be possible that the world is being migrated into an era where the imperial periphery will be increasingly governed through Artificial Intelligence AI and robotics designed to replace human beings Celebrated as efficient strong unfailing tireless precise and beyond

corruption AI and robots are set to replace African leaders who are imperially deemed to be and consistently condemned as corrupt failed weak and inefficient But if these AI and robots are neo imperial tools and machinations the million dollar question is whether empire is not returning to recolonise the supposedly inefficient Africans via the new technologies and machinism Where Africans once celebrated their liberation war movements empire has emplaced what it calls liberation technologies designed to supposedly liberate African youths from their own states and governments led by liberation movements Where Africans once celebrated their liberation war movements empire has placed its own NGOs CSOs spewing liberal ideologies designed to ostensibly liberate African youths from their own supposedly failed and corrupt states and government leaders With African youths citizens allying not with their liberation movements but with the liberation technologies and liberal NGOs CSOs it is not surprising why African citizens oppose their states led Fast Track Land Redistribution Programmes while ironically they happily celebrate Fast Tracked COVID 19 Vaccines Positing the notion of HumansMustFall movements this book underscores ways in which empire is in a process of eternal return to 21st century Africa The book is crucial for scholars and activists in political science government studies sociology anthropology cultural studies history languages and communication studies security studies military studies and development studies
