The Player Bookazine Issue 21 The Player,2012-09-03 **THE WHISTLE-BLOWER ON CORRUPT SCIENCE** P.S.J. (Peet) Schutte,2012-12-14 The Whistle Blower on Corrupt Science Science went corrupt the day Edmund Halley in 1705 told the world he used the physics formula of his friend Isaac Newton to calculate the route that Halley s comet took and the time it would arrive This was where science went crooked a position that went on ever since because that same dishonesty is still present in Newtonian science Halley calculated the time periods since 1066 at the battle of Hastings and found a comet was mentioned every seventy six years This was very ordinary for a man of his class so he had to get far cleverer than backdate history to get a time frame So he really got clever and conspired with the biggest fraud in science ever since the man that stole all the physics Doctor Hooks invented the man who even got Kepler figures wrong the man called Isaac Newton Halley said he used the formula of Newton to calculate the route the comet took This says he used mass to calculate how the comet came to the sun According to Newton s science the sun s mass pulled the comet and the comet s mass pulled right back and in this way the comet came to the sun I don t go into the comet as such in this book but I do in other books In this book I show how Newtonian science started to go corrupt in 1705 with one conspiracy to cheat and became the corrupt myth it now developed into How do I know Halley did not use the mass pull mass idea It is because if he did so then how did he calculate that the comet was cyclic or that it returns every seventy six years If mass pulled the comet to the sun what then pushed to comet back into outer space His big ambition was to prove the comet comes and goes but if mass makes the comet come what pushes the comet back You know what is the biggest fraud that came to be called Newtonian science The most brilliant minds on earth this past three hundred years failed to asks this simple question if mass pulls the comet closer what pushes the comet away If mass forms the force of pulling and pulled the comet closer then what pushed the comet back into the darkness of the beyond How did he know the mass of Halley s comet Nobody then asked questions No one asks uneasy question except me I show the fake science we have Newton and Halley got away with corrupt science If you wish to prove wrong I challenge you to prove that Newton is correct Today just like it was and keeping the trend go on modern Newtonians gets away with even more corrupt science than anyone can imagine **AUTO-ONLINE** 11/2012 126 Everything to Nothing Mark Henthorne,2012-01-26 A contemporary novel charting the rise and decline of relationships set in a modern Britain relationships set against the lives and privilege of the mega rich to the despair of down and outs As the relationships develop between Sally and David Michelle and Simon contrasted with Sarah s destructive drug fuelled affair with Peter Sally s privileged upbringing and relationship with her father is scrutinised The power of great wealth is set against the ordinariness of the other characters backgrounds

The heart of the book however highlights the ongoing and unstoppable repercussions of Peter's actions. He is a hard, greedy and unfeeling man. As a direct result of Peter's actions and manipulation of a vulnerable Sarah, there is a later breakdown of David and Sally's relationship and the disintegration of the friendship between Sally and Michelle. The book boldly ends with a series of tragedies. This novel certainly engages with the reader and leaves us wanting more.

The Top Gear Story - The 100% Unofficial Story of the Most Famous Car Show... In The World Martin Roach, 2012-05-25

From humble beginnings as a 1970s motoring show, Top Gear has gone on to achieve diesel-powered world domination. After Clarkson and producer Andy Wilman successfully pitched a new format to BBC bosses, Top Gear returned to become the irreverent, funny and often controversial show we now know and love. The Star in a Reasonably Priced Car, the Cool Wall and Power Laps by the mysterious Stig have all become staples of Britain's favourite Sunday evening entertainment. Recent series have been defined by their madcap challenges such as driving across Africa in clapped-out bangers with predictably hilarious results. However, the show's most shocking moment came in 2006 when Hammond suffered serious head injuries while driving a Vampire turbojet drag racing car at over 300mph. Clarkson, Hammond and May are the politically incorrect, joking stone-washed denim-wearing bloke hero trio for the modern-ish age. This brilliant, detailed book is a fitting tribute to the show, its presenters and its most memorable moments.
