Produce, Price and Promote Your Self-Published Fiction or Non-fiction Book and e-Book Paul Lima,2013-07 If you are interested in this book, I presume you have written a book or plan to write one and are thinking of self-publishing it. If so, this is the place to start. If you self-publish a non-fiction book of interest to a defined target market or a book of fiction for people who read the genre you have produced, you can begin to promote it to interested readers. I have sold close to 10,000 books. So while I'm not E.L. James, author of the originally self-published *50 Shades of Grey*, I am a happy and profitable self-published author. Perhaps you can become one too. Having said that, your desire to self-publish may not be all about book sales. You may be looking to write a book to give to family and friends. You may be looking to gain the credibility that publishing a book gives a speaker or workshop leader. You may have other reasons for publishing your book. No matter your reason, this book will answer many of your self-publishing questions, point you in the right direction, and get you started. In short, as the title says, this book will help you produce, price, and promote your self-published book.
