At the Altar of the Bottom Line Tom Juravich,2009 Based on extensive interviews with workers in four different industries this book takes us behind the statistics of the economic collapse and into the lives of Americans who are struggling to make ends meet and support their families Tom Juravich combines oral history with social and economic analysis to provide a vivid account of the multiple challenges presented in today s workplaces At a Verizon call center in Andover Massachusetts customer service reps find themselves overwhelmed by the pace of work and the constant monitoring They describe a daily routine marked by regimentation intense pressure to sell and unrelenting stress In New Bedford undocumented Guatemalans in the fish processing industry are fired if they don t work fast enough cheated out of wages and mistreated by supervisors Juravich describes a brutal immigration raid by U S Immigration and Customs Enforcement that divided families and forced workers further underground Juravich then takes us inside the operating rooms at the Boston Medical Center where hospital consolidation has brought a new bottom line philosophy that has fundamentally altered the way patient care is delivered Surgery takes place almost non stop driving some nurses from their chosen profession and leaving those who remain exhausted The final case study looks at the shuttering of the Jones Beloit plant an internationally known manufacturer of machinery for the paper industry Despite the best efforts of highly skilled and productive workers to save their plant it was abruptly closed and they were abandoned after their CEO recklessly became involved in a shaky foreign investment Juravich argues that workers face a series of paradoxes in the contemporary American workplace They can no longer assume that large established firms create good jobs The new working conditions often resemble what was traditionally associated with marginal and low wage employers He concludes that we must bring a discussion about the quality of jobs back into the public discourse and that a good jobs strategy is a fundamental building block to economic recovery Workers voices are front and center in this highly readable book It includes striking photographs by Paul Shoul and a CD that presents a series of audio documentaries with excerpts from the interviews as well as four original songs written and performed by Juravich

90% of All Internet Businesses Will Fail Danny Demichele,2010-01-13 0% of internet business fail I know it is a harsh reality but it is true This number is likely to go up as technology is making it cheaper and easier for people to enter the online marketplace Add to this that Big Companies are shifting millions of dollars online as their customers are going online

Inside the New China Gene Ayres,2017-07-05 China is no longer a Third World country It is now the world s fastest growing economy Even after the 2008 Olympics this fact may come as a shock to many Americans who continue to think that the Chinese still march around in brown uniforms with red stars on their caps arresting dissidents for wearing capitalist Levis China has at last count more than half a billion cell phone users Indeed the Chinese are not only the world s leading users of mobile phones but also the leading suppliers No Chinese student goes without one and even a donkey cart driver chatting away on a mobile is not an

uncommon sight China's educated New Generation is possibly the most highly motivated force since the post World War II generation in America. The young people of China are the next wave of a flourishing Chinese middle class now estimated as 13.5 % of the population and expected to be 600 million strong by 2015 according to Business Week. These young people want to drive cars like ours, live in houses like ours, own condos near the beach, wear designer clothes and carry cell phones, iPods, camcorders, digital cameras and MP3 players just like Americans. Tens of millions already do. During a thirty month stay in China between 2004 and 2007, Ayres was presented to soldiers straight out of boot camp, toasted by military generals and governors, invited to parties with local leaders as a foreign expert and dignitary and begged to counsel dissidents and the lovelorn. He rode buses jammed with peasants hoping that they would actually be paid at the end of the month. He dickered with farmers in open markets and street vendors desperate to make ends meet. He dealt with smooth, savvy merchants in upscale department stores and debated policy with Communist Party bosses. This revised paperback edition of the author's earlier work *A Billion to One* is a vivid, intimate account of China as it is today.
