Hoffman, 2007-07-23 Today it is almost impossible to do business without a cell phone and a BlackBerry or PDA These devices are the lifeline for companies large and small and nobody knows this better than a hacker Traditionally security for mobile devices has held a low priority Now a certified ethical hacker explains in this book why this must change and how to change it Packed with sobering examples of actual attacks this unique resource shows you how to mount your counterattack *PC Mag* , 2006-07 PCMag com is a leading authority on technology delivering Labs based independent reviews of the latest products and services Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology Balls Out Marketing: Go Big or Go Home - Push Boundaries and Unlock Your Full Marketing Potential , 2024-03-01 This isn t just a book it s a battle cry for the brave a playbook for pioneers in a business world that eats the timid for breakfast Here you re invited to a feast of innovation where mediocrity is off the menu and boldness is the chef s special Unleash the Power of Balls Out Marketing In today s dog eat dog business scene marketing s either your rocket fuel or your anchor Sadly too many are still hanging onto outdated traditional marketing plays leading to piss poor results Everything is saturated prices are skyrocketing and the competition is brutal The old school ways are dead Shaking up your marketing game isn t just smart it s critical The battle to be noticed is real if you don t step up you re done So What is Balls Out Marketing It s not just a buzzword it s a philosophy a mindset and an attitude that encourages innovation expansion and advancement It harnesses your potential pushing you to go beyond the boundaries of what you once considered possible Everything is within reach if you re brave enough to reach out and grab it Think bigger Way bigger Now multiply that by 100 000 The Mindset According to the Bureau of Labor Statistics about 20% of small businesses fail in their first year The failure rate increases to 30% by the second year 50% by the fifth year and 70% by the tenth year One big reason that these businesses fail is a lack of understanding of marketing or piss poor marketing efforts in general Unfortunately most people s approach to marketing is to look at what the competition is doing and to do the same exact thing
