The introduction of an essay should end with a strong, debatable thesis statement and approximately take 10% of the required word count. Please note that student's information, title, headers, and Works Cited page are not counted towards the required word count.

A Systematic Guide to Write a Research Paper, **Writing a Research Paper in Political Science** Lisa A. Baglione, 2018-12-31. Crafting the right research question, finding good sources, properly summarizing them, operationalizing concepts, and designing good tests for their hypotheses, presenting and analyzing quantitative as well as qualitative data are all tough going without a great deal of guidance and encouragement. Writing a Research Paper in Political Science breaks down the research paper into its constituent parts and shows students what they need to do at each stage to successfully complete each component until the paper is finished. Practical summaries, recipes for success, worksheets, exercises, and a series of handy checklists make this a must have supplement for any writing intensive political science course. New to the Fourth Edition, a non-causal research paper woven throughout the text offers explicit advice to guide students through the research and writing process. Updated and more detailed discussions of plagiarism, paraphrases, drop ins, and transcripts help to prevent students from misusing

sources in a constantly changing digital age A more detailed discussion of fake news and disinformation shows students how to evaluate and choose high quality sources as well as how to protect oneself from being fooled by bad sources Additional guidance for writing abstracts and creating presentations helps students to understand the logic behind abstracts and prepares students for presentations in the classroom at a conference and beyond A greater emphasis on the value of qualitative research provides students with additional instruction on how to do it
