M. Maassen, 2011 Universities and economic development in Africa Pact academic core and coordination draws together evidence and synthesises the findings from eight African case studies The three key findings presented in this report are as follows 1 There is a lack of clarity and agreement pact about a development model and the role of higher education in development at both national and institutional levels There is however an increasing awareness particularly at government level of the importance of universities in the global context of the knowledge economy 2 Research production at the eight African universities is not strong enough to enable them to build on their traditional undergraduate teaching roles and make a sustained contribution to development via new knowledge production A number of universities have manageable student staff ratios and adequately qualified staff but inadequate funds for staff to engage in research In addition the incentive regimes do not support knowledge production 3 In none of the countries in the sample is there a coordinated effort between government external stakeholders and the university to systematically strengthen the contribution that the university can make to development While at each of the universities there are exemplary development projects that connect strongly to external stakeholders and strengthen the academic core the challenge is how to increase the number of these projects The

project on which this report is based forms part of a larger study on Higher Education and Economic Development in Africa undertaken by the Higher Education Research and Advocacy Network in Africa HERANA HERANA is coordinated by the Centre for Higher Education Transformation in South Africa *Action Research for Classrooms, Schools, and Communities* Meghan Manfra, 2019-12-20 *Action Research for Classrooms Schools and Communities* is a core book for action research courses The book also emphasizes using action research to understand community impacts on schools acknowledging the complex ecology linking classrooms schools and the community especially regarding issues fundamental to school reform

Essays on the Real Church Dirk J. Smit, 2024-08-15 The spirit of the Reformation is often expressed in the well known slogan that Reformed churches are always being reformed according to God's Word *ecclesia reformata semper reformanda secundum verbum Dei* Over the last century the spirit of this slogan motivated someone like Dietrich Bonhoeffer to argue that the visible form and life of the church should reflect the truth and message of the church Already in his doctoral dissertation called *Sanctorum Communio* the communion of the saints the young Bonhoeffer combined theological claims and traditions with social theory and analysis in this spirit in an innovative way to study the nature and integrity and witness of the church At the time this was a radical claim with major consequences and challenges for Protestant churches Their life which meant their order structure actions statements convictions public presence and role was to be measured by their gospel which meant their message proclamation convictions claims They could no longer proclaim one truth yet live a different life It was this spirit which led to the well known Theological Declaration of Barmen in 1934 and to the formation of the Confessing Church in Nazi Germany Many called this a moment of truth a *status confessionis* It was this same spirit which later inspired the struggle in South Africa for the integrity and faithfulness of the church and for the credibility of its message proclamation and witness The contributions in this volume 52 papers essays sermons studies were all produced in this spirit Most of them have not been published before They were all occasional pieces written over several decades in different contexts and for different purposes and audiences yet they all breathe this self critical spirit of the Reformation considering whether the real church the concrete every day actual living church that people know and experience and perhaps belong to truly strives to embody the gospel itself the message which it claims and proclaims They all inquire under different circumstances and in diverse ways about different social forms of the real church from worship to congregation from denomination to ecumenical church from individual believers to movements and organisations whether and how they embody the truth of the church or not Together these contributions tell a story the story of this spirit in South African circles over several decades but also in the ecumenical church in our globalizing world They offer one small glimpse into different concrete moments in the story of this spirit in the life of this tradition and community of faith Hopefully some of these accounts may resonate with others who also shared the same spirit and still share it today in new and ongoing ways
