How To Use Crystal Report In Asp Net 2005:

Pro VS 2005 Reporting using SQL Server and Crystal Reports Rod Paddock, Kevin Goff, 2007-02-01 Creating clear and comprehensive reporting functionality is one of the most important and most misunderstood tasks that developers do in professional life. The reports they generate are used by both their clients and their own managers to assess the performance of their applications and to gauge how well the application meets business objectives. This book shows how to use Visual Studio 2005 and complementary technologies such as Crystal Reports to quickly and simply create fast flexible reporting for applications of any size. In this book our experienced author team shows how to create the best results as efficiently as possible.

No Stress Tech Guide to Crystal Reports for Visual Studio 2005 for Beginners Indera Murphy, 2008 This book is specifically for the version of Crystal Reports that comes with Visual Studio 2005. If you have been looking for a beginners book that has a lot of easy to understand step by step instructions and screen shots that show you how to learn and use the version of Crystal Reports that comes bundled with Visual Studio 2005 this is the book for you. The No Stress Tech Guide To Crystal Reports for Visual Studio 2005 For Beginners book is a self paced visual guide to learning Crystal Reports and is written from the perspective that the reader has not created a report before or has not used Crystal Reports. This book is for the beginner and intermediate user. To help you become familiar with the options and features this book contains over 500 illustrations that provide a visual tour of the software. Crystal Reports Basic for Visual Studio 2008 ISBN 978 0 9773912 8 8 is also available. If you are looking for a beginners book for Crystal Reports XI see ISBN 978 0 9773912 3 3.

Integrating Crystal Reports into an ASP.NET Application Vincent Varallo, 2010-11-17 This Wrox Blox provides step by step instructions on how to incorporate the Crystal Reports for .NET into an ASP .NET application. Reporting is a key ingredient for polishing up applications especially enterprise applications or line of business applications. You can quickly and easily build an ASP .NET application that allows a manager to run reports to get this information rather than display it in a simple HTML page. In this Wrox Blox you will learn how to dynamically format reports easily group data display subtotals as well as grand totals sort data filter data and even export the report as a PDF. There are plenty of applications that allow users to enter data into a database but for some reason reports always seem to be forgotten when it comes to designing the application. For many business applications a report is the only output the person paying for the application is looking for. How fast are the data entry operators entering data? How many support calls are being logged? How many bugs are in the application? Do these types of requests sound familiar? It's usually upper management asking these questions and the last thing you want them to do is actually go into the application to get this information that opens up a whole new can of worms. Crystal Reports for .NET truly is a magnificent tool to polish off your application and keep your managers happy while keeping the users productive.
