**¡TAXI! El modo olvidado de la movilidad en Bogotá** Álvaro Rodríguez,Jorge Acevedo,2012-01-01 Pese a que el servicio de taxis es fundamental para el transporte en Bogotá este medio ha sido subvalorado y hasta desde adó en los estudios análisis y modelos de transporte urbano de la ciudad en buena medida por la precaria información que manejan las autoridades reguladoras acerca de las empresas vehículos y conductores Esta obra es un primer paso para entender las características del sistema y su potencialidad para enfrentar temas de tráfico en la capital así como para cuantificar varios de sus componentes como el hecho de que agrupa más de cincuenta mil vehículos que recorren 12 5 millones de kilómetros al día y que recauda ingresos equivalentes a 2 4 veces los de Transmilenio Por todo lo anterior es un trabajo indispensable para investigadores y estudiosos del tema de la movilidad en Bogotá **Business Today** ,2007 **Motor Business Asia-Pacific** ,2000 **Made in Korea** Richard M. Steers,2013-08-21 American business folklore is awash with the adventures of successful entrepreneurs Still most of these stories are about Americans neglecting important and courageous entrepreneurs from other countries Made in Korea recounts the story of how Chung Ju Yung rose from poverty to build one of the world s largest and most successful building empires Hyundai through a combination of creative thinking tenacity timing political skills and a business strategy that few competitors ever understood Chung entered the shipbuilding business with no

experience and went on to create the world's largest shipyard. He began making automobiles when foreign experts unanimously predicted he would fail and he started a global construction company that has built some of today's greatest architectural wonders. He even convinced the International Olympic Committee to select South Korea over Japan as the site for the highly successful 1988 Olympics. Unlike most CEOs of major firms, Chung has always preferred the company of his workers to that of the global executive elite. Hard work, creativity, and a capacity to never give up: this is the essence of Chung's life. In each of his ventures, he exhibited a sheer determination to succeed regardless of the obstacles, and he worked tirelessly to instill this drive in all of his employees. Even today, in the midst of Korea's worst economic crisis in over four decades, Chung's company is busy implementing plans to emerge as an even stronger contender in the world economy. Illustrated with 32 pages of colour photographs not previously seen in the West, including photos of Chung's recent historic visit to North Korea in 1998, *Made in Korea* takes stock of Chung's entire life, highlighting both his contributions to society and the lessons his work can teach to aspiring entrepreneurs. **Automotive News**, 2005
