Countdown to Socialism Anthea Jeffery,2023-07-19

With growth stalling joblessness at crisis levels and governance unravelling most South Africans cannot fathom why the ANC does not embark on meaningful reform The answer lies in what is seldom raised the ruling party s unwavering determination to take the country by incremental steps from capitalism to socialism This transformation is being implemented via a Moscow inspired national democratic revolution NDR dating back many decades Despite the Soviet Union s collapse in 1991 the ANC SACP alliance still sees the NDR as offering the most direct route to socialism in South Africa and hence as its bedrock strategy The NDR has been implemented in many different spheres since 1994 By way of example NDR interventions have already made

millions of people unemployable and the mining sector largely uninvestable They now aim at land expropriation without compensation EWC and the effective nationalisation of private healthcare and pensions The NDR is the key to understanding ANC rule over some 30 years yet most South Africans have been kept in the dark on it This book aims to fill that gap Written in clear and simple language it provides an indispensable primer on the NDR and its role in the countdown to socialism in South Africa *South African national bibliography*, 1999 Classified list with author and title index

The Condition of Primary and Secondary Education in Gauteng (1995/1996) Adél Hartley, 1998

Human Resources Development Review 2008 Andre Kraak, Karen Press, 2008 Through 25 chapters authored by some of the leading researchers in the field the Human Resources Development Review 2008 provides an extensive overview of the contextual factors driving human resources development in South Africa A key theme throughout the volume is the importance of a multi faceted skills development strategy operating at three levels The first entails high skills policies aimed at expanding export oriented manufacturing production and services provision particularly in new globally competitive niche areas The second relates to the economy's ongoing need for intermediate skills as is evident in the shortage of skilled artisans and technologists Finally the provision of basic entry level skills is important in view of the urgent need for large scale job creation schemes triggered by public sector initiatives to ameliorate high levels of unemployment and despondency especially amongst the youth *Drum*, 2006
