The Getting of Garlic John Newton, 2018-10-01 The white colonisers of Australia suffered from Alliumphobia a fear of garlic Local cooks didn t touch the stuff and it took centuries for that fear to lift This food history of Australia shows we held onto British assumptions

about produce and cooking for a long time and these fed our views on racial hierarchies and our place in the world Before Garlic we had meat and potatoes After Garlic what we ate got much more interesting But has a national cuisine emerged What is Australian food culture Renowned food writer John Newton visits haute cuisine or fine dining restaurants the cafes and mid range restaurants and heads home to the dinner tables as he samples what everyday people have cooked and eaten over centuries His observations and recipes old and new show what has changed and what hasn't changed as much as we might think even though our chefs are hailed as some of the best in the world

Eating Like a Mennonite Marlene Epp, 2023-09-08 Mennonites are often associated with

food both by outsiders and by Mennonites themselves Eating in abundance eating together preserving food and preparing so called traditional foods are just some of the connections mentioned in cookbooks food advertising memoirs and everyday food talk Yet since Mennonites are found around the world from Europe to Canada to Mexico from Paraguay to India to the Democratic Republic of the Congo what can it mean to eat like one In *Eating Like a Mennonite* Marlene Epp finds that the answer depends on the eater on their ancestral history current home gender socio economic position family traditions and personal tastes Originating in central Europe in the sixteenth century Mennonites migrated around the world even as their religious teachings historically emphasized their separateness from others The idea of Mennonite food became a way of maintaining community identity even as unfamiliar environments obliged Mennonites to borrow and learn from their neighbours Looking at Mennonites past and present Epp shows that foodstuffs cuisine and foodways practices depend on historical and cultural context She explores how diets have evolved as a result of migration settlement and mission how food and gender identities relate to both power and fear how cookbooks and recipes are full of social meaning how experiences and memories of food scarcity shape identity and how food is an expression of religious beliefs as a symbol in ritual and in acts of charity From zwieback to tamales and from sauerkraut to spring rolls *Eating Like a Mennonite* reveals food as a complex ingredient in ethnic religious and personal identities with the ability to create both bonds and boundaries between people
