**Choice**, 2007 **Completing a Professional Practice Dissertation** Jerry W. Willis, Ron Valenti, Deborah Inman, 2010-06-01 A growing number of both established and newly developed doctoral programs are focusing on the preparation of practitioners rather than career researchers Professional doctorates such as the Doctor of Nursing Practice DNP Doctor of Education EdD Doctor of Pharmacy PharmD Doctor of Professional Studies DProf or DPS and the Doctor of Psychology PsyD are in fact just a few of the professional doctorates being offered today Professional doctorates are the

fastest growing segment of doctoral education The nature of the dissertation and the process of completing a dissertation can be quite different in a professional practice doctoral program but there are few resources for both students and faculty involved in completing and mentoring such dissertations This book was written specifically for students and faculty involved in professional practice dissertation work It addresses both the tasks and procedures that professional practice dissertations have in common with dissertations in research doctoral programs as well as the tasks and issues that are more common in professional practice doctoral programs For example negotiating entry into applied settings and securing the cooperation of practicing professionals is covered as are alternative models for the dissertation e g the three article dissertation or TAD The book also covers tasks such as getting IRB approval for applied dissertation research conducted in the field and how to propose and carry out studies based on applied and professional models of research This book written by three experienced mentors of professional practice dissertation students is the comprehensive guide for both students and faculty

Careers and Talent Management Cristina Reis, 2015-12-07 Careers and Talent Management challenges and deconstructs the notion of the perfect career in order to provide new perspectives on talent management and career creation It argues that the skills that organizations typically look for as

indicative of superstar performance are not necessarily those that lead to competitive advantage Attracting and retaining talent is both challenging and complex for organizations since it is not known especially at the top level which employee skills will be most valuable in helping the organization be competitive globally In this thoughtful book Reis bucks the trend on emerging super talents critically analyzing topics related to the field of general management careers and talent management such as leadership entrepreneurship gender and diversity to demonstrate the range of employee skills that can benefit an organization globally Chapter focuses include global entrepreneurship remote business practices and social responsibility These new perspectives on talent management will help students of human resource management think critically about the implications of pursuing or encouraging a perfect career trajectory Positive leadership and worker well-being in dynamic regional contexts Martijn Burger, Martine J. H. Coun, Jol Stoffers, Steven Van Den Heuvel, Thomas Van Waeyenberg, Arne Vanderstikken, 2024-01-19 *Human Resources Management in Multinational Companies* Marzena Stor, 2022-12-27 Human resource management HRM has a significant impact on companies performance as evidenced by research conducted in multinational companies MNCs based in Central Europe This book provides a unique perspective of activities conducted in the HRM field in local subsidiaries of such enterprises It also presents results verifying many hypotheses for each of the six models for single HRM subfunctions and their four relationships with the results of company performance Particular chapters are devoted to activities including staffing the organization shaping employee work engagement and job satisfaction conducting employee performance appraisal employee development managerial staff development and employer branding The author used the Partial Least Squares Structural Equation Modeling to verify the research hypotheses Readers will acquire knowledge about HRM practices in organizations in which the overwhelming ownership capital belongs to MNCs headquartered in Central Europe The research findings presented confirm the positive impact that HRM activities have on the results of this type of enterprise in such areas as finance quality innovation and HRM itself The research also sheds light on the new interesting regularities identified in this regard e g the perception of human factor as a competitive factor This book will be of interest to academics researchers and advanced or postgraduate students who are interested in the latest research on HRM in MNCs in the region of Central Europe The Open Access version of this book available at [www.taylorfrancis.com](http://www.taylorfrancis.com) has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license *IFLA Directory* International Federation of Library Associations and Institutions, 1998 *Handbook of Research on Trends in European Higher Education Convergence* Dima, Alina Mihaela, 2014-04-30 With an increase in global competition among universities and national higher education systems educational programs desire to offer compatible content without losing their competitive advantage Because of this balance the issue of convergence along with its benefits and limits has emerged The Handbook of Research on Trends in European Higher Education Convergence aims to identify the indicators that meet the consensus of the academic community and higher education management experts Analyzing the

recognized trends within the publication and concluding which measures should be taken to improve convergence pace and avoid potential pitfalls this reference book is a useful resource for academics and students as well as specialists policy makers and professionals connected with the educational sector      **Access to Knowledge in India** Ramesh Subramanian, Lea Shaver, 2011-09-30 This book is available as open access through the Bloomsbury Open Access programme and is available on [www.bloomsburycollections.com](http://www.bloomsburycollections.com) This is the third volume in our Access to Knowledge series India is a 1 trillion economy which nevertheless struggles with a very high poverty rate and very low access to knowledge for almost seventy percent of its population which lives in rural areas This volume features four parts on current issues facing intellectual property development policy especially rural development policy and associated innovation from the Indian perspective Each chapter is authored by scholars taking an interdisciplinary approach and affiliated to Indian or American universities and Indian think tanks Each examines a policy area that significantly impacts access to knowledge These include information and communications technology for development the Indian digital divide networking rural areas copyright and comparative business models in music free and open source software patent reform and access to medicines the role of the Indian government in promoting access to knowledge internationally and domestically      **Management** Christopher P.
