Making Sense of Emotion Frank John Ninivaggi, 2017-08-31 Children not shown tools to develop emotional intelligence fail emotionally and socially. Basic empathy skills are absent. In adult life employment and occupational advancement are less likely. *Making Sense of Emotion* grasps the Yale integrative emotional intelligence ability model. Adding key missing elements this book unlocks its potential to trigger emotion performance utilization in real life and real time. The epidemic of overusing medications, substance use disorders, addiction, drug overdoses, even global doping in sports reflects emotional malaise. Emotional illiteracy is one underlying cause and demands innovative emotional intelligence. Written by a psychiatrist, this volume supplies literacy tools, a vivid action language showing how emotions unfold as personal dramas. Emotions are our first language, the mother tongue infants and children are lived by. Emotional awareness is refined emotional intelligence. This book clearly defines emotions, feelings, affects, moods, and the social emotional competencies needed to understand and build emotional awareness. Skills take shape resulting in unfolding self attunement. In real time emotional intelligence is effective emotional performance. The missing link between the two is the application of emotion regulation in real life knowledge in the head displayed in skilled everyday behavior. Innovative ideas in this book explain how to apply this emotional hygiene fitness program to benefit children and adults. *Emotional Intelligence*, *Anger Management Games for Children* Deborah Plummer, 2008-03-15 This book helps adults to understand, manage, and reflect on children's anger. Featuring a wealth of games, it is designed to foster successful anger management strategies for children aged 5-12. It covers the theory behind the games and includes a broad range of activities, active and passive, verbal and non-verbal, and for different sized groups.

YOU Lead You Trevor Stockwell, 2024-02-10 What is success for you? Finding purpose, achieving global fame, building a profitable business, owning fast cars, multiple homes, saving the environment, making the world a better place for others. Could you be more successful? Are you ready to stop self-sabotage? Do you feel frustrated, limited, with a growing sense that more is possible? Life is messy and you will not get things right 100% of the time, but every experience feeds into the growth process. Self-leadership is our superpower and often the determinant to the level of success or failure we experience, the decider of optimal or mediocre living. We decide how far we want to go. This book reveals the common allies and enemies to successful self-leadership and provides practical insights for leveraging the benefits as well as highlighting areas for personal development. The more you raise your level of awareness regarding these areas and consistently develop and express them, the more effective your self-leadership will be, empowering you to experience more fulfillment and lead others more successfully. Everything of value has a cost associated to it. If self-leadership was easy, everyone would be a great leader, but the pay-off for consistently investing in yourself and living with intention is HUGELY SATISFYING. If you focus the right level of time and energy in developing great self-leadership consistently, it will maximise EVERY part of your life, minimise self
