**Eternal God/saving Time** George Pattison, 2015 Starting from the assumption that time is the horizon of the meaning of Being Heidegger Eternal God Saving Time attempts to discover what the central religious idea of eternity or of God as the Eternal might mean today Negotiating ideas of divine timelessness and sempiternity everlastingness as well as the attempts of some philosophers to develop the idea of a temporal God Professor George Pattison surveys a range of positions from analytic philosophy and from the continental tradition from Spinoza through Hegel to the present Intellectual and cultural forces have tended to separate time and eternity and both philosophical and theological examples of this tendency are examined Nevertheless starting from the experience of life in time some modern thinkers have developed a new approach to the Eternal as what grounds or gives time This leads through ideas of novelty utopia hope promise and call to the projection of a creative and transformative memory remembering the future that affirms human solidarity and mutual responsibility Even if this cannot be made good in terms of knowledge it offers a basis for hope prayer and commitment and these options are explored through a range of Christian Jewish Greek and secular thinkers This development re envisages the idea of redemption away from the Augustinian view that time is what we need to be rescued from and towards the idea that time itself might save us from all that is destructive and tyrannical in time s rule over human life *Ramayan in Human Physiology: Discovery of the Eternal Reality of the Ramayan in the Structure and Function of Human Physiology* Tony Nader, 2025-02-08 More than ten years in the making the Ramayan in Human Physiology is the perfect sequel to Professor Tony Nader MD Ph D MARR s first groundbreaking work on the correspondence of the Vedic Literature and human physiology With his intellect finely honed by doctoral and post doctoral research in neuroscience at Massachusetts Institute of Technology MIT and Harvard Medical School and his intuition and feeling deeply cultivated by years of personal training with renowned Vedic scientist and sage Maharishi Mahesh Yogi Dr Nader beautifully integrates cutting edge science with the ancient wisdom of the Vedas Dr Nader s insights into the deepest levels of understanding of the cosmic nature of the human physiology led Maharishi to refer to him as the greatest scientist of our time and give him the honorary title of Maharaja Adhiraj Rajaraam *Symbols of the Eternal Doctrine* Helen Valborg, 2007 The remarkable essays in this volume were written for the expressed purpose of helping both the newcomer to spiritual thinking as well as the skilled practitioner to see the everyday objects from the wind and ships to deserts and lakes and subjects from dogs and ravens to dolphins and whales surrounding us as concrete embodiments and living symbols of the fundamental spiritual Essence from which everything has evolved These universal symbols are not just accidental mental constructs but are living realities that not only point to spiritual dimensions far beyond themselves but profoundly embody those spiritual realities Learning to see the world around us afresh in the light of its spiritual dimension reorients us to taking up again the age old task of treading the Path and aids us in activating our higher spiritual capacities which when awakened shed the pristine light of universal Theosophy on the

path of spiritual self regeneration in the service of humanity The 28 wide ranging articles in this volume span a wide spectrum of human thought from the Tetraktys to the Cross from the Altar to the Mirror from the Pentagram to the Dodecahedron from the Dog to the Dwarf from the Heart to the Fool indeed from Shamballa to Paradise These essays reveal the fundamental religious philosophical and scientific aspects to the most mundane and most refined realities of our common everyday world Both the serious reflection upon and casual reading of these essays is a joyous expedition through the all too common truncated perceptions we have of our world to a higher level of awareness of the myriad ways in which the life of the universal Spirit is made manifest
