Evocation Two Of The Training Of Eileen:

Evocation William Vitelli, 2013-01-23 In Book 2 of the Training of Eileen follow Eileen deeper down the rabbit hole as her husband continues her training With patience and skill he indoctrinates her into her new life pushing her training far past anything she could ever have expected A deep passion is ignited within her Eileen awakens to her life of sexual servitude As she learns new skills a hunger awakens inside her As her training continues in new and ever more devious ways Eileen finds herself going much further into her new role than she would have dreamed possible Women's Places Brenda Martin, Penny Sparke, 2003 What was different about the environments that women created as architects designers and clients at a time when they were gaining increasing political and social status in a male world Through a series of case studies *Women's Places Architecture and Design 1860-1960* examines in detail the professional and domestic spaces created by women who had money and the opportunity to achieve their ideal Set against a background of accepted notions of modernity relating to design and architecture of the late 19th and early 20th centuries this book provides a fascinating insight into women's social aspirations and identities It offers new information and new interpretations in the study of gender material culture and the built environment in the period 1860-1960 **Dictionary of Women Artists: Introductory**

surveys ; Artists, A-I Delia Gaze, 1997 First Published in 1997 Routledge is an imprint of Taylor Francis an informa company *Resources in Education*, 1977 Society in Early Modern England Phil Withington, 2010-09-20 The sixteenth and seventeenth centuries have traditionally been regarded by historians as a period of intense and formative historical change so much so that they have often been described as early modern an epoch separate from the medieval and the modern Paying particular attention to England this book reflects on the implications of this categorization for contemporary debates about the nature of modernity and society The book traces the forgotten history of the phrase early modern to its coinage as a category of historical analysis by the Victorians and considers when and why words like modern and society were first introduced into English in the sixteenth and seventeenth centuries In so doing it unpicks the connections between linguistic and social change and how the consequences of those processes still resonate today A major contribution to our understanding of European history before 1700 and its resonance for social thought today the book will interest anybody concerned with the historical antecedents of contemporary culture and the interconnections between the past and the present **Visions of Dystopia in China's New Historical Novels** Jeffrey C. Kinkley, 2014-11-04 The depiction of personal and collective suffering in modern Chinese novels differs significantly from standard Communist accounts and most Eastern and Western historical narratives Writers such as Yu Hua Su Tong Wang Anyi Mo Yan Han Shaogong Ge Fei Li Rui and Zhang Wei scramble common conceptions of China's modern development deploying avant garde narrative techniques from Latin American and Euro American modernism to project a surprisingly un-Chinese dystopian vision and critical view of human culture and ethics The epic narratives of modern Chinese fiction make rich use of magical realism surrealism and

unusual treatments of historical time Also featuring graphic depictions of sex and violence and dark raunchy comedy these novels deeply reflect China's turbulent recent history representing the overthrow of the monarchy in the early twentieth century and the resulting chaos of revolution and war the recurring miseries perpetrated by class warfare during the dictatorship of Mao Zedong and the social dislocations caused by China's industrialization and rise as a global power This book casts China's highbrow historical novels from the 1990s to the mid 2000s as a distinctively Chinese contribution to the form of the global dystopian novel and consequently to global thinking about the interrelations of utopia and dystopia
