Faecal Sludge Management Linda Strande, Mariska Ronteltap, Damir Brdjanovic, 2014 *Faecal Sludge Management* Linda Strande, Damir Brdjanovic, 2014-08-14 It is estimated that literally billions of residents in urban and peri urban areas of Africa Asia and Latin America are served by onsite sanitation systems e g various types of latrines and septic tanks Until recently the management of faecal sludge from these onsite systems has been grossly neglected partially as a result of them being considered temporary solutions until sewer based systems could be implemented However the perception of onsite or decentralized sanitation technologies for urban areas is gradually changing and is increasingly being considered as long term sustainable options in urban areas especially in low and middle income countries that lack sewer infrastructures This is the first book dedicated to faecal sludge management It compiles the current state of knowledge of the rapidly evolving field of faecal sludge management and presents an integrated approach that includes technology management and planning based on Sandecs 20 years of experience in the field *Faecal Sludge Management Systems Approach for Implementation and Operation* addresses the organization of the entire faecal sludge management service chain from the collection and transport of sludge and the current state of knowledge of treatment options to the final end use or disposal of treated sludge The book also presents important factors to consider when evaluating and upscaling new treatment technology options The book is designed for undergraduate and graduate students and engineers and practitioners in the field who have some basic knowledge of environmental and or wastewater engineering Authors Linda Strande Eawag Switzerland Mariska Ronteltap UNESCO IHE Institute for Water Education Delft The Netherlands and Damir Brdjanovic UNESCO IHE Institute for Water Education Delft The Netherlands *City-Wide Sanitation: The Urban Sustainability Challenge* Christoph Lüthi, Sabine Hoffmann, Juliet Willetts, 2020-12-22 This eBook is a collection of articles from a Frontiers Research Topic Frontiers Research Topics are very popular trademarks of the Frontiers Journals Series they are collections of at least ten articles all centered on a particular subject With their unique mix of varied contributions from Original Research to Review Articles Frontiers Research Topics unify the most influential researchers the latest key findings and historical advances in a hot research area Find out more on how to host your own Frontiers Research Topic or contribute to one as an author by contacting the Frontiers Editorial Office frontiersin.org/about/contact *Water, Sustainable Development and the Nexus* Velma I. Grover, Amani Alfarra, 2019-08-30 Water is intricately linked with food security energy security and sustainable development As the world is moving towards sustainable development goals it is critical to recognize the role of water in attaining these goals The Water Energy Food Nexus draws attention to the complex and interrelated nature of global resource systems and forces us to think about how a decision in one sector impacts other interlinked sectors as well This book looks at the three dimensions of sustainable development environment economics and society and how water is linked with them and explores the nexus approach as a framework to look at the issues and identify solutions **Rethinking Faecal Sludge**

Management in Emergency Settings Fiona Zakaria, 2019-07-24 The development of technology in the emergency sanitation sector has not been emphasised sufficiently considering that the management of human excreta is a basic requirement for every person. The lack of technology tailored to emergency situations complicates efforts to cater for sanitation needs in challenging humanitarian crisis. Concerns persist on the lack of faecal sludge management that considers the whole sanitation chain from containment until treatment. This study focused on the development of a smart emergency toilet termed the eSOS emergency sanitation operation system smart toilet to address the limitation in technical options. This toilet is based on the eSOS concept that takes into account the entire sanitation chain. This study also addresses the limited time for planning in emergencies by developing a decision support system DSS to help quick selection of optimal sanitation options. The aim was to enable users of the DSS to plan their emergency sanitation response within the shortest time possible. The study aims to contribute toward a better emergency sanitation response by application of technology advances.

Novel Concepts, Systems and Technology for Sludge Management in Emergency and Slum Settings Peter Mawioo, 2020-02-07 Management of sludge is one of the most pressing issues in sanitation provision. The situation is especially complex when large quantities of fresh sludge containing various contaminants are generated in onsite sanitation systems in urban slums, emergency settlements and wastewater treatment facilities that require proper disposal of the sludge. The application of fast and efficient sludge management methods is important under these conditions. This study focused on the development of an innovative sludge treatment unit that is based on the microwave irradiation technology. The technology provides a rapid and efficient option for sludge treatment in isolated conditions such as slum emergency and similar situations. The microwave based technology forms part of the eSOS emergency sanitation operation system concept that promotes an integrated sanitation approach in which all components of the entire sanitation chain are planned holistically. Besides, the study addresses the deficiencies associated with the poor choice of emergency sanitation technology options by proposing a methodology that is based on compensatory multi criteria analysis. This study contributes in providing solutions towards improved sanitation in complex scenarios, especially the management of faecal sludge in emergency and slum conditions.
