Gauteng Mathematical Literacy Paper 2 Question Paper

Anthony S. Fauci

Gauteng Mathematical Literacy Paper 2 Question Paper:

Mathematics Teaching and Professional Learning in sub-Saharan Africa Kakoma Luneta, 2021-12-09 The book represents a crop of wide ranging research conducted by renowned scholars in sub-Saharan Africa revolving around mathematics teaching and professional development programs for mathematics teachers. The research-based proposals and actual how to conduct professional development initiatives that enhance effective mathematics instruction are rooted in teacher input and informed by learners' errors and misconceptions. The book provides a comprehensive snapshot on mathematics teaching, learning and effective professional development programmes for mathematics teachers in sub-Saharan Africa. It is the only research output that advances and disseminates issues of mathematics education and research in the region with input from South Africa, Kenya, Rwanda, Uganda, Malawi, Namibia, Lesotho, Ethiopia and Zimbabwe.

Pedagogy in Poverty Ursula Hoadley, 2017-08-09 As South Africa transitioned from apartheid to democracy, changes in the political landscape as well as educational agendas and discourse on both a national and international level shaped successive waves of curriculum reform over a relatively short period of time. Using South Africa as a germane example of how curriculum and pedagogy can interact and affect educational outcomes, *Pedagogy in Poverty* explores the potential of curricula to improve education in developing and emerging economies worldwide and ultimately to reduce inequality. Incorporating detailed empirical accounts of life inside South African classrooms, this book is a much needed contribution to international debate surrounding optimal curriculum and pedagogic forms for children in poor schools. Classroom level responses to curriculum policy reforms reveal some implications of the shifts between a radical progressive approach and traditional curriculum forms. Hoadley focuses on the crucial role of teachers as mediators between curriculum and pedagogy and explores key issues related to teacher knowledge by examining the teaching of reading and numeracy at the foundational levels of schooling. Offering a data-rich historical sociology of curriculum and pedagogic change, this book will appeal to academics, researchers and postgraduate students in the fields of education, sociology of education, curriculum studies, educational equality and school reform, and the policy and politics of education.
