*Education in the Asia-Pacific Region* Chi-Ming Lam, Jae PARK, 2015-12-12 This book demonstrates the value of approaching

education from a sociological and philosophical perspective Specifically it addresses current and long standing educational

issues in the Asia Pacific region integrating sociological and philosophical insights with practical applications in four key

areas educational aims moral education educational policy and the East West dichotomy It discusses educational aims in

terms of rationality philosophical thinking and sustainable development and presents the literary religious and analytical

approaches to moral education Four educational policies are then considered Hong Kong s language policy Hong Kong s

policy on the internationalization of education East Asia s policies on English education and Australia s policy on teacher

education Different aspects of the East West dichotomy are analysed Confucian rationalism versus Western rationalism

Confucian learning culture versus Western learning culture and Asian research methodology versus Western research

methodology Taken as a whole the book shows that issues in education are rarely simple and looking at them from multiple

perspectives allows for rich and informed debates It presents a rare philosophical and sociological analysis of the cultures

and experiences of education in the Asia Pacific region and promotes research that leads to more culturally rooted
