Youth and Skills ,2012-01-01 Many young people around the world especially the disadvantaged are leaving school without the skills they need to thrive in society and find decent jobs As well as thwarting young people s hopes these education failures are jeopardizing equitable economic growth and social cohesion and preventing many countries from reaping the potential benefits of their growing youth populations The 2012 Education for All Global Monitoring Report examines how skills development programmes can be improved to boost young people s opportunities for decent jobs and better lives Publisher s description **Global Human Resource Development** Thomas N. Garavan,Alma M.

McCarthy,Michael J. Morley,2016-02-05 Drawing on contributions from leading academics in the field this volume within the Routledge Series in Human Resource Development specifically focuses on Global Human Resource Development HRD Specifically the volume provides an overview of 17 regions 85 countries and includes one emerging market grouping CIVETS This book examines the role of the state in HRD the relationship between HRD and the level of economic development in the country or region the influence of foreign direct investment within the country or region and firm level HRD practices within countries or regions Global Human Resource Development analyzes HRD from institutional and cross cultural perspectives making it possible for the first time to analyze trends across countries and regions and to draw conclusions about the value of institutional and cross cultural perspectives in the HRD context There is currently no book on the market that conceptualizes the discipline of global HRD in this way making this a definitive book on HRD across the globe of particular interest to researchers and reflective practitioners *Knowledge and the City* Francisco Javier Carrillo,Tan Yigitcanlar,Blanca

García,Antti Lönnqvist,2014-08-01 This book underlines the growing importance of knowledge for the competitiveness of cities and their regions Examining the role of knowledge in its economic socio cultural spatial and institutional forms for urban and regional development identifying the preconditions for innovative use of urban and regional knowledge assets and resources and developing new methods to evaluate the performance and potential of knowledge based urban and regional development the book provides an in depth and comprehensive understanding of both theoretical and practical aspects of knowledge based development and its implications and prospects for cities and regions On Unemployment, Volume II

Mark R. Reiff,2015-10-07 With unemployment at historically high rates that show signs of becoming structural there is a pressing need for an in depth exploration of this economic injustice Unemployment is one of the problems most likely to put critical pressure on our political institutions disrupt the social fabric of our way of life and even threaten the continuation of liberalism itself Despite the obvious importance of the problem of unemployment however there has been a curious lack of attention paid to this issue by contemporary non Marxist political philosophers On Unemployment explores the moral implications of the problem of unemployment despite the continuing uncertainty involving both its causes and its cures Reiff takes up a series of questions about the nature of unemployment and what justice has to tell us about what we should do if

anything to alleviate it The book comprehensively discusses the related theory and suggests how we might implement these more general observations in the real world It addresses the politics of unemployment and the extent to which opposition to some or all of the book s various proposals stem not from empirical disagreements about the best solutions but from more basic moral disagreements about whether the reduction of unemployment is indeed an appropriate moral goal This exciting new text will be essential for scholars and readers across business economics and finance as well as politics philosophy and sociology

Popular Music, Cultural Politics and Music Education in China Wai-Chung Ho, 2016-12-08 While attention has been paid to various aspects of music education in China to date no single publication has systematically addressed the complex interplay of sociopolitical transformations underlying the development of popular music and music education in the multilevel culture of China Before the implementation of the new curriculum reforms in China at the beginning of the twenty first century there was neither Chinese nor Western popular music in textbook materials Popular culture had long been prohibited in school music education by China s strong revolutionary orientation which feared spiritual pollution by Western cultures However since the early twenty first century education reform has attempted to help students deal with experiences in their daily lives and has officially included learning the canon of popular music in the music curriculum In relation to this topic this book analyses how social transformation and cultural politics have affected community relations and the transmission of popular music through school music education Ho presents music and music education as sociopolitical constructions of nationalism and globalization Moreover how popular music is received in national and global contexts and how it affects the construction of social and musical meanings in school music education as well as the reformation of music education in mainland China is discussed Based on the perspectives of school music teachers and students the findings of the empirical studies in this book address the power and potential use of popular music in school music education as a producer and reproducer of cultural politics in the music curriculum in the mainland

Business Research Pieter W. Buys, Merwe Oberholzer, 2023-03-14 This book focuses on research methodologies that apply to business research particularly for researchers and managers embarking thereon to support managerial decision making in the industry In doing so the book's objective is to guide business researchers in identifying defining and applying rigorous academic methodologies that will enable them to formulate design and execute effective research that answers their specific management problems Such guidance can empower organizational managers to understand that business research can contribute to practical solutions to actual problems experienced in the industry In addition by emphasizing the integrative nature between 1 academic research and 2 experienced industry problems it becomes possible to foster an awareness of such research's

potential impact on organizational performance management sustainability and resilience With that attention is given to narrowing the gap between theory and practice which requires that fundamentals of scientific research be adhered to while maintaining the delicate balance between a practice friendly guide to pragmatically sound and academically rigorous business research

Reconceptualizing English for International Business Contexts Elma Dedović-Atilla, Vildana Dubravac, 2022-08-05 This book presents a critique of current English as a Business Lingua Franca BELF practices using research conducted in Bosnia and Herzegovina The authors identify English communication behaviors that hinder or promote success in the workplace and trace these back to curricula and teaching practices The authors suggest which skills employers need and expect from employees and question whether English courses concerned with general academic English skills and business vocabulary are sufficient training for linguistically complex workplaces The book also examines whether the focus on achieving native like proficiency with high grammatical standards and a strong emphasis on form are adequately preparing students who aspire to use English in professional contexts as a means to get their job done

Credit Rating Governance Ahmed Naciri, 2015-01-30 Credit rating agencies play an essential role in the modern financial system and are relied on by creditors and investors on the market In the recent financial crisis their power and reliability were often questioned yet a simple rating downgrade could threaten to bankrupt a whole country This book examines the governance of credit rating agencies as expressed by their ability to fairly ethically and consistently assign higher rates to issuers having lesser default risks However factors such as the drive for increased revenue and market share the inadequate business model the inadequate methodology of assessing risk opacity and inadequate internal monitoring have all been identified as critical governance failures for credit agencies This book explores these issues and proposes some potential solutions and improvements This will be of interest to researchers and advanced students of corporate finance financial economics risk management investment management and banking

Higher Education in the Global Age Daniel Araya, Peter Marber, 2013-11-20 Discussions on globalization now routinely focus on the economic impact of developing countries in Asia Africa the Middle East the former Soviet Union and Latin America Only twenty five years ago many developing countries were largely closed societies Today the growing power of emerging markets is reordering the geopolitical landscape On a purchasing power parity basis emerging economies now constitute half of the world's economic activity Financial markets too are seeing growing integration Asia now accounts for 1/3 of world stock markets more than double that of just 15 years ago Given current trajectories most economists predict that China and India alone will account for half of global output by 2050 almost a complete return to their positions prior to the Industrial Revolution How is higher education shaping and being shaped by these massive tectonic shifts As education rises as a geopolitical priority it has converged with discussions on economic policy and a global labor market As part of the Routledge Studies in Emerging Societies series this edited collection focuses on the globalization of higher education particularly the increasing symbiosis between advanced and

developing countries Bringing together senior scholars journalists and practitioners from around the world this collection explores the relatively new and changing higher education landscape

Assessing Academic Literacy in a Multilingual Society Albert Weideman, John Read, Theo du Plessis, 2020-11-02 South African universities face major challenges in meeting the needs of their students in the area of academic language and literacy The dominant medium of instruction in the universities is English and to a much lesser extent Afrikaans but only a minority of the national population are native speakers of these languages Nine other languages can be media of instruction in schools which makes the transition to tertiary education difficult enough in itself for students from these schools The focus of this book is on procedures for assessing the academic language and literacy levels and needs of students not in order to exclude students from higher education but rather to identify those who would benefit from further development of their ability in order to undertake their degree studies successfully The volume also aims to bring the innovative solutions designed by South African educators to a wider international audience

Strategic Communication, Corporatism, and Eternal Crisis Phil Graham, 2017-05-08 This book traces a century of militarised communication that began in the United States in April 1917 with the institution of the Committee on Public Information CPI headed by George Creel and tasked with persuading a divided US public to enter World War I Creel achieved an historic feat of communication a nationalising mass mediation event well before any instantaneous mass media technologies were available The CPI s techniques and strategies have underpinned marketing public relations and public diplomacy practices ever since The book argues that the CPI s influence extends unbroken into the present day as it provided the communicative and attitudinal bases for a new form of political economy a form of corporatism that would come to its fullest flower in the globalisation project of the mid 1990s

Cyberspace in Peace and War Martin Libicki, 2016-10-15 This book is written to be a comprehensive guide to cybersecurity and cyberwar policy and strategy developed for a one or two semester class for students of public policy including political science law business etc Although written from a U S perspective most of its contents are globally relevant It is written essentially in four sections The first chapters 1 5 describes how compromises of computers and networks permit unauthorized parties to extract information from such systems cyber espionage and or to force these systems to misbehave in ways that disrupt their operations or corrupt their workings The section examines notable hacks of systems fundamental challenges to cybersecurity e g the lack of forced entry the measure countermeasure relationship including the role of malware and various broad approaches to cybersecurity The second chapters 6 9 describes what government policies can and as importantly cannot be expected to do to improve a nation s cybersecurity thereby leaving leave countries less susceptible to cyberattack by others Among its focus areas are approaches to countering nation scale attacks the cost to victims of broad scale cyberespionage and how to balance intelligence and cybersecurity needs The third chapters 10 15 looks at cyberwar in the context of military operations Describing cyberspace as the 5th domain of warfare feeds the notion that lessons learned from other domains e g land sea

apply to cyberspace In reality cyberwar a campaign of disrupting corrupting computers networks is quite different it rarely breaks things can only be useful against a sophisticated adversary competes against cyber espionage and has many first strike characteristics The fourth chapters 16 35 examines strategic cyberwar within the context of state on state relations It examines what strategic cyberwar and threats thereof can do against whom and how countries can respond It then considers the possibility and limitations of a deterrence strategy to modulate such threats covering credibility attribution thresholds and punishment as well as whether denial can deter It continues by examining sub rosa attacks where neither the effects nor the attacker are obvious to the public the role of proxy cyberwar the scope for brandishing cyberattack capabilities including in a nuclear context the role of narrative and signals in a conflict in cyberspace questions of strategic stability and norms for conduct in cyberspace particularly in the context of Sino U S relations and the role played by international law The last chapter considers the future of cyberwar Air Force Journal of Logistics ,2009 **A Century of Sovereign Ratings** Norbert Gaillard,2011-09-21 The financial difficulties experienced by Greece since 2009 serve as a reminder that countries i e sovereigns may default on their debt Many observers considered the financial turmoil was behind us because major advanced countries had adopted stimulus packages to prevent banks from going bankrupt However there are rising doubts about the creditworthiness of several advanced countries that participated in the bailouts In this uncertain context it is particularly crucial to be knowledgeable about sovereign ratings This book provides the necessary broad overview which will be of interest to both economists and investors alike Chapter 1 presents the main issues that are addressed in this book Chapters 2 3 and 4 provide the key notions to understand sovereign ratings Chapter 2 presents an overview of sovereign rating activity since the first such ratings were assigned in 1918 Chapter 3 analyzes the meaning of sovereign ratings and the significance of rating scales it also describes the refinement of credit rating policies and tools Chapter 4 focuses on the sovereign rating process Chapters 5 and 6 open the black box of sovereign ratings Chapter 5 compares sovereign rating methodologies in the interwar years with those in the modern era After examining how rating agencies have amended their methodologies since the 1990s Chapter 6 scrutinizes rating disagreements between credit rating agencies CRAs Chapters 7 and 8 measure the performances of sovereign ratings by computing default rates and accuracy ratios Chapter 7 looks at the interwar years and Chapter 8 at the modern era The two chapters assess which CRA assigns the most accurate ratings during the respective periods Chapters 9 and 10 compare the perception of sovereign risk by the CRAs and market participants Chapter 9 focuses on the relation between JP Morgan Emerging Markets Bond Index Global spreads and emerging countries sovereign ratings for the period 1993 2007 Chapter 10 compares the eurozone members sovereign ratings with Credit Default Swap Implied Ratings CDS IRs during the Greek debt crisis of November 2009 May 2010
