PHYSICAL FACTORS:

- ✓ Early settlements develop around a subsistence farming
- ✓ Choice of site is linked to physical aspects of site

1. Availability of fresh water supply

2. Farming factors

Fertile and arable land or land that provides good grazing for livestock.
Land that are flat or gentle are also preferred.

Eidelson,2023-09-05 Doing Harm pries open the black box on a critical chapter in the recent history of psychology the field s
enmeshment in the so called war on terror and the ensuing reckoning over do no harm ethics during times of threat Focusing
on developments within the American Psychological Association APA over two tumultuous decades Roy Eidelson exposes the
challenges that professional organizations face whenever powerful government agencies turn to them for contributions to
ethically fraught endeavours In the months after 9 11 it became clear that the White House the Department of Defense and
the Central Intelligence Agency were prepared to ignore well established international law and human rights standards in
prosecuting the war on terror It was less clear however that some of Eidelson s fellow psychologists would become part of
the abusive and torturous operations at overseas CIA black sites and Guantanamo Bay Nor was it initially clear that this
ruthless enterprise would garner acquiescence and support from the APA s leadership Doing Harm examines how and why
the APA failed to join human rights groups in efforts to constrain the US government s unbridled pursuit of security and
retribution It recounts an ongoing struggle one that has pitted APA leaders set on preserving strong ties to the military
intelligence establishment against dissident voices committed to prioritizing do no harm principles **News Releases** ,1987
