Earth Frontiers Julie M. Klinger, 2018-01-15 *Rare Earth Frontiers* is a work of human geography that serves to demystify the powerful elements that make possible the miniaturization of electronics, green energy and medical technologies and essential telecommunications and defense systems. Julie Michelle Klinger draws attention to the fact that the rare earths we rely on most are as common as copper or lead and this means the implications of their extraction are global. Klinger excavates the rich historical origins and ongoing ramifications of the quest to mine rare earths in ever more impossible places. Klinger writes about the devastating damage to lives and the environment caused by the exploitation of rare earths. She demonstrates in human terms how scarcity myths have been conscripted into diverse geopolitical campaigns that use rare earth mining as a pretext to capture spaces that have historically fallen beyond the grasp of centralized power. These include legally and logistically forbidding locations in the Amazon, Greenland and Afghanistan and on the Moon. Drawing on ethnographic archival and interview data gathered in local languages and offering possible solutions to the problems it documents, this book examines the production of the rare earth frontier as a place, a concept and a zone of contestation, sacrifice and transformation. **On Chester** On Graeme J. White, 2014 Although there has been a University of Chester only since 2005, its predecessor Chester College dates back further than most UK universities to 1839. This book celebrates the 175th anniversary of the foundation in 2014. The story is a remarkable one of survival and success. The early College was a pioneering venture with a unique approach to learning and the University still houses the first buildings in England specifically designed for the training of teachers. Three times in the 1860s, the 1930s and the 1970s, Chester College came near to closure, only repeatedly to emerge intact and to become stronger than before. In the early twenty-first century, the University has a growing reputation within the higher education sector and can claim some of the highest rates of student satisfaction in the country. The book's title is taken from the College motto of the late Victorian and Edwardian period as appropriate today as when it was coined: Show More, Show Less. **The English Professor** Margaret R. O'Leary/Dennis S. O'Leary, 2016-02-04 Across the span of more than forty years, Raphael Dorman O'Leary, a professor of English rhetoric and English literature, taught his students at the University of Kansas to think straight, to put sinew into their sentences and to embrace the magnificent literary treasures of their mother tongue. *The English Professor* by authors Margaret R. O'Leary and Dennis S. O'Leary offers a narrative of the life, work and times of a revered Midwestern university English teacher. This memoir narrates how the professor, born in 1866, was raised on a Kansas farm in the post-bellum era. Like his father before him, he was committed to a life of learning and teaching. His colleagues knew him for his unpretentious exterior, honesty and integrity, and his flashing anger at cheapness, vulgarity, pretense and, above all, charlatanism. When Professor O'Leary died after a short illness in 1936, his personal effects passed through two generations to his grandson, Dennis S. O'Leary, who with

his wife Margaret discovered his papers while restoring a family house The trove of material served as the core resource for the compilation of *The English Professor* It provides insights into the histories of Kansas and the University of Kansas and of Harvard University as well as perspectives on higher education including the teaching of English rhetoric language literature journalism and oratory in the United States Global Perspectives on Changing Secondhand Economies Karen Tranberg Hansen, Jennifer Le Zotte, 2022-02-23 Providing interdisciplinary and global perspectives this book examines historical and contemporary changes in secondhand economies including the emergence and specialization of secondhand venues the materials involved as well as the cultural significance of secondhand things and the professions associated with them The objects in focus range from used clothing scrap and waste materials to antiquities and used cars thrift stores and circular economies Growing concerns with sustainability in the West have helped bring about the rediscovery of practices of clothing re use re purposing and re cycling at the same time as major high street retailers are establishing programs to return used clothing to their stores for re sale or recycling As the contributions to this edited volume demonstrate recent concerns with the fast pace and adverse effects of global commodity flows have increased the scholarly attention to secondhand economies both in terms of their history and their significance for livelihoods and sustainability The chapters in this book were originally published as a special issue of the journal *Business History* International Handbook of Research on Environmental Education Robert B. Stevenson, Michael Brody, Justin Dillon, Arjen E.J. Wals, 2013-05-02 The environment and contested notions of sustainability are increasingly topics of public interest political debate and legislation across the world Environmental education journals now publish research from a wide variety of methodological traditions that show linkages between the environment health development and education The growth in scholarship makes this an opportune time to review and synthesize the knowledge base of the environmental education EE field The purpose of this 51 chapter handbook is not only to illuminate the most important concepts findings and theories that have been developed by EE research but also to critically examine the historical progression of the field its current debates and controversies what is still missing from the EE research agenda and where that agenda might be headed Published for the American Educational Research Association AERA The Rural New-Yorker ,1923 Resources in Education ,1998 **The Uganda Gazette** Uganda, 2015-12 Canadian Books in Print ,1982 **The National Union Catalog, Pre-1956 Imprints** Library of Congress, American Library Association.
