Here are some of the rules they had to follow:  Chapter – 6 : Permission to speak should rarely be granted to monks.  Chapter – 7 : Humility means obedience.  Chapter – 33: No monk should own private property.  Chapter – 47: Idleness is the enemy of the soul, so friars and sisters should be occupied at certain times in manual labour, and at fixed hours in sacred reading. Chapter-48: The monastery should be laid out in such a way that all necessities be found within its bounds: water, mill, garden, workshops.</p> <p>Questions:  1. What does humility' mean?  2. What does chapter 47 say?  3. What sort of values are reflected in this chapter?</p>	1 1 2
33	<p>Read the following passage carefully and answer the questions that follow:</p> <p>William Tyndale (1494-1536), an English Lutheran who translated the Bible into English in 1506, defended Protestantism thus: 'In this they be all agreed, to drive you from the knowledge of the scripture, and that ye shall not have the text thereof in the mother-tongue, and to keep the world still in darkness, to the intent they might sit in the consciences of the people, through vain superstition and false doctrine, to satisfy their proud ambition, and insatiable covetousness, and to exalt their own honour above king and emperor, yea, and above God himself... Which thing only moved me to translate the New Testament. Because I had perceived by experience, how that it was impossible to establish the lay-people in any truth, except the scripture were plainly laid before their eyes in their mother- tongue, that they might see the process, order, and meaning of the text.</p> <p>Questions :  (i) What do you know about William Tyndale?  (ii) What were his objectives to translate the Bible into English?  (iii) What were the issues on which the Protestants criticized the Catholic Church?  Write any two issues.</p>	1 1 2

subject is raised we are obligated to get mired in pointless arguments about the weather This book helps set the record straight Not convinced Consider some of these inconvenient truths The cost of green energy climate remediation is anywhere from 10 to 1 000 times greater than the damage from the climate change it attempts to alleviate Germany the worlds leader in solar energy will spend more than 280 billion by 2030 on solar subsidies But all of that investment will only forestall 22nd century global warming by 37 hours Obamas carbon tax would cost Americans 1 2 trillion over just ten years But it would only reduce the midrange 3 degree modeled 22nd century global temperature increase by 0 038 degrees Celsius At their current emissions growth rate it will take China nine months to replace the entire U S emissions cut that Obama wants to achieve over seven years at a staggering cost in American jobs and lost economic growth The U S biofuel program imposes a cost on consumers 9 862 times greater than any climate benefit they or their distant progeny will ever derive This is not another skeptical global warming polemic but an economic evaluation of how and why green energy will fail The world has too many pressing needs For the money Obama squandered on just a single bankrupt crony solar company the U S could have prevented 300 000 childhood malaria deaths in poor countries A thoroughly researched heavily documented book by an expert in his field it will demonstrate in meticulous detail how wasteful and economically inefficient Obamas green energy dead end future will be compared to other worthy alternatives Its time to end the hysterical climate cynicism and get on humanitys side
