Interdisciplinary Behavior and Social Sciences Ford Lumban Gaol, 2015-02-27 The human aspect plays an important role in the social sciences The behavior of people has become a vital area of focus in the social sciences as well Interdisciplinary

Behavior and Social Sciences contains papers that were originally presented at the 3rd International Congress on Interdisciplinary Behavior and Social Science 2014 ICIBSoS 2014 Tourism and Citizenship Raoul Bianchi, Marcus Stephenson, 2014-02-24 More than sixty years since the 1948 Universal Declaration of Human Rights first enshrined the right to freedom of movement in an international charter of human rights the issue of mobility and the right to tourism itself have become increasingly significant areas of scholarly interest and political debate However despite the fact that cross border travel implies certain citizenship rights as well as the material capacity to travel the manifold intersections between tourism and citizenship have not received the attention they deserve in the literature This book endeavours to fill this gap by being the first to fully examine the role of tourism in wider society through a critically informed sociological reflection on the unfolding relationships between international tourism and distinct renderings of citizenship with particular emphasis on the ideological and political alignments between the freedom of movement and the right to travel The text weaves its analysis of citizenship and travel in the context of addressing large scale societal transformations engendered by globalization neoliberalism and the geopolitical realignments between states as well as comprehending the internal reconfiguring of the relationship between citizens and states themselves By doing so it focuses on key themes including tourism and social citizenship rights race culture and minority rights states markets and the freedom of movement tourism peace and geopolitics consumerism and class and ethical tourism global citizenship and cosmopolitanism The book concludes that the advancement of genuinely democratic and just forms of tourism must be commensurate with demands for distributive justice and a democratic politics of mobility encompassing all of humanity This timely and significant contribution to the sociology and politics of international tourism through the lens of citizenship is a must read for students and scholars in both in the fields of tourism and social science The royalties received from this book will be donated to the International Porter Protection Group **Roads to Prosperity** Gary S. Sands, Laura A. Reese, 2017-11-06 Explores popular economic development strategies in midsize Canadian urban areas Roads to Prosperity Economic Development Lessons from Midsize Canadian Cities explores the relative prosperity of midsize Canadian urban areas population 50 000 to 400 000 over the past two decades Communities throughout North America have strived for decades to maintain and enhance the prosperity of their residents In the areas that are the focus of this research the results of these efforts have been mixed some communities have been relatively successful while others have fallen further behind the national averages Midsize cities often lack the resources both internal and external to sustain and enhance their prosperity Policies and strategies that have been successful in larger urban areas may be less effective or unaffordable in smaller ones Roads to Prosperity first examines the economic structure of forty two Canadian urban regions that fall within the midsize range to determine the economic specializations that characterize these communities and to trace how these specializations have evolved over the time period between 1991 and 2011 While urban areas with an economic base of natural resource or manufacturing industries tend to retain this

economic function over the years communities that rely on the service industries have been much more likely to experience some degree of restructuring in their economies over the past twenty years The overall trend among these communities has been for their employment profiles to become more similar and for their economic specialization to fade over time The second part of the book looks at a number of currently popular economic development strategies as they have been applied to midsize urban areas and their success and failures While there appears to be no single economic development strategy that will lead to greater prosperity for every community Sands and Reese explore the various factors that help explain why some work and others don't Those with an interest in urban planning and community development will find this monograph highly informative

Leisure, Recreation, and Tourism Abstracts, 1983

Ghosts of the Somme Jonathan Evershed, 2018-05-30 Once assumed to be a driver or even cause of conflict commemoration during Ireland's Decade of Centenaries came to occupy a central place in peacebuilding efforts The inclusive and cross communal reorientation of commemoration particularly of the First World War has been widely heralded as signifying new forms of reconciliation and a greater maturity in relationships between Ireland and the UK and between Unionists and Nationalists in Northern Ireland In this study Jonathan Evershed interrogates the particular and implicitly political claims about the nature of history memory and commemoration that define and sustain these assertions and explores some of the hidden and countervailing transcripts that underwrite and disrupt them Drawing on two years of ethnographic fieldwork conducted in Belfast Evershed explores Ulster Loyalist commemoration of the Battle of the Somme its conflicted politics and its confrontation with official commemorative discourse and practice during the Decade of Centenaries He investigates how and why the myriad social political cultural and economic changes that have defined postconflict Northern Ireland have been experienced by Loyalists as a culture war and how commemoration is the means by which they confront and challenge the perceived erosion of their identity He reveals the ways in which this brings Loyalists into conflict not only with the politics of Irish Nationalism but with the peacebuilding state and crucially with each other He demonstrates how commemoration works to reproduce the intracommunal conflicts that it claims to have overcome and interrogates its nuanced and perhaps counterintuitive function in conflict transformation

Economic Development of Caricom Winston H. Griffith,2021-10-12 It has been suggested that if CARICOM nations wish to accelerate their development they should embrace laissez faire economic policies However laissez faire economic policies have reinforced the very economic and social structures that have contributed to their low level of development furthermore laissez faire economic policies ignore social attitudes that can greatly influence a nation s development Moreover low skilled labor intensive production processes which once propelled growth in CARICOM nations will no longer perform a similar role because production processes are becoming more and more knowledge skills intensive and nations wishing to attract foreign manufacturing investment or high tech services may not be able to do so without an adequate pool of the necessary knowledge skills CARICOM nations must therefore try to accumulate a pool of knowledge skills that can help their economies become internationally competitive *Indigenous Celebrity* Jennifer Adese,Robert Alexander Innes,2021-04-09 Indigenous Celebrity speaks to the possibilities challenges and consequences of popular forms of recognition critically recasting the lens through which we understand Indigenous people s entanglements with celebrity It presents a wide range of essays that explore the theoretical material social cultural and political impacts of celebrity on and for Indigenous people It questions and critiques the whitestream concept of celebrity and the very juxtaposition of Indigenous and celebrity and casts a critical lens on celebrity culture s impact on Indigenous people Indigenous people who willingly engage with celebrity culture or are

drawn up into it enter into a complex terrain of social relations informed by layered dimensions of colonialism racism sexism homophobia transphobia and classism Yet this reductive framing of celebrity does not account for the ways that Indigenous people's own worldviews inform Indigenous engagement with celebrity culture or rather popular social and cultural forms of recognition Indigenous Celebrity reorients conversations on Indigenous celebrity towards understanding how Indigenous people draw from nation specific processes of respect and recognition while at the same time navigating external assumptions and expectations This collection examines the relationship of Indigenous people to the concept of celebrity in past present and ongoing contexts identifying commonalities tensions and possibilities *Indonesia's Ascent* C. Women and Industry in the Balkans Chiara

Bonfiglioli,2019-09-19 Women s emancipation through productive labour was a key tenet of socialist politics in post World War II Yugoslavia Mass industrialisation under Tito led many young women to join traditionally feminised sectors and as a consequence the textile sector grew rapidly fast becoming a gendered symbol of industrialisation consumption and socialist modernity By the 1980s Yugoslavia was one of the world s leading producers of textiles and garments The break up of Yugoslavia in 1991 however resulted in factory closures bankruptcy and layoffs forcing thousands of garment industry workers into precarious and often exploitative private sector jobs Drawing on more than 60 oral history interviews with former and current garment workers as well as workplace periodicals and contemporary press material collected across Croatia Macedonia Serbia Bosnia Herzegovina and Slovenia Women and Industry in the Balkans charts the rise and fall of the Yugoslav textile sector as well as the implications of this post socialist transition for the first time In the process the book explores broader questions about memories of socialism lingering feelings of attachment to the socialist welfare system and the complexity of the post socialist era This is important reading for all scholars working on the history and politics of Yugoslavia and the Balkans oral history memory studies and gender studies

Homes in Crisis Capitalism Marnie

Holborow,2024-02-22 Homes in Crisis Capitalism explores the core social reproduction role that individual households fulfil in our societies and the class and racial effects of this on gender inequality and discrimination Women now make up nearly half of the paid workforce globally yet prevailing neoliberal social policy continues to rule out adequate state provision of child and elder care choosing instead to rely on marketized services to fill the gap It is mainly women who carry out this little valued care work either in a non paid or paid capacity and gender inequality is entrenched across society Official gender parity policies often expressed in terms of equality of opportunity have done little to ease the double burden of domestic and care work for the vast majority of women Competitive labour markets discriminate against those expected to be the primary caregivers of children the sick and disabled and older people In addition the presence across many societies of an acute housing crisis and soaring inflation have put added pressures on home life A social reproduction crisis has developed and it is working class women and women of colour who are paying the price Holborow analyses homes in crisis capitalism through a Marxist lens of capitalist social reproduction This book charts the interwoven social and political effects and outcomes of work and care provided in the home and makes the case for a radical break with capitalism to give social reproduction the

material resources and social recognition it deserves
