

JANUARY ... DOES IT BRING YOU JOY?

- 1 January is the time for renewal on many fronts. It's the time of the year to re-evaluate everything. If something or someone doesn't bring you joy, it's pretty pointless carrying on with it. If we want the best, we must do our best. We must keep our family space safe and secure so that we are thriving as a people and as a nation. 5
- 2 In order to live their best lives, people are spreading themselves thinner and thinner with multiple streams of income. In the process we earn more but live less, we lose our focus of what is important.
- 3 With social media, keeping up with other Instagrammers are having a devastating effect on self-perception. Everything appears to be real perfect, but the fabric of our society is frazzled. Use January to take stock and start navigating new ways of doing things. Instead of multiple streams of sole sessions, travel more, and connect with people and places that bring you joy. 10

The Transnationalized Social Question Thomas Faist,2019 The social question is back Yet today s social question is not primarily between labour and capital as it was in the nineteenth century and throughout much of the twentieth The contemporary social question is located at the interstices between the global South and the global North It finds its expression in movements of people seeking a better life or fleeing unsustainable social political economic and ecological conditions It is transnationalized not only because migrants and their significant others entertain ties across the borders of

national states staying in touch with family and friends receiving or sending financial remittances in transnational social spaces Also of importance are cross border recruitment schemes for workers and the cross border diffusion of norms appealed to in the case of migration for example the social right to decent work as a human right Moreover migration can become an issue of inclusion or exclusion in fields important to life chances in the emigration transit or immigration states a transnationalization of national states And as in the nineteenth century political conflicts arise constituting the social question as a public concern In earlier periods class differences dominated conflicts While class has always been criss crossed by manifold heterogeneities not least of all cultural ones around ethnicity religion and language it is these latter heterogeneities that have sharpened in situations of immigration and emigration over the past decades Casting a wide net in terms of conceptual and empirical scope this book tackles both the social structure and the politics of social inequalities It sets a comprehensive agenda for research which also includes the public role of social scientists in dealing with the transnationalized social question The Middle Class in World Society Christian Suter, S.
