the Red, White, and Blue Thomas Jundt,2014-03-12 In popular imagination environmentalism is often linked to Rachel Carson s Silent Spring and the political activism of the 1960s and 70s that moved increasing numbers of Americans to insist on a better quality of life open spaces clean air and water beautification campaigns But these interpretations have obscured the significant origins of environmentalism as a moral and intellectual broadside against the growing power of corporate capitalism both domestically and in the postwar liberal international order the United States was enacting abroad In Greening the Red White and Blue Thomas Jundt shows how many Americans came to view powerful corporations and a federal government bent on economic growth as threats to human health and the environment Fallout from atomic testing air and water pollution the proliferation of pesticides and herbicides all connected to the growing dominance of technology and corporate capitalism in American life led a variety of constituencies to seek solutions in what came to be known as environmentalism In addition to political and legal campaigns to effect change an alternative form of civic participation emerged beginning in the late 1940s as growing numbers of citizens turned to what they deemed environmentally friendly consumption practices The goal of this politically charged consumption was not only to protect themselves and their families from harm but also to achieve social change at a time when many believed the government was placing the desires of business before the needs of its citizens Politicians responded to the growing environmental concerns of middle class Americans but in the end continual political compromises with corporate power meant weak laws and lax enforcement Many citizens sought refuge in an alternative green marketplace including organic foods natural fiber clothing alternative energy and everyday products designed to have minimal environmental impact In doing so they attempted to create a community for those who shared their concerns and frustrations as well as their vision for a different American Way Thomas Jundt s work highlights the intertwining of consumerism and environmentalism amidst the growing power of corporate capitalism and government in postwar America **Iron Trade Review** ,1924 **Driving from Japan** Wanda James,2015-08-13 This study chronicles the success of the Japanese car in America Starting with Japan s first gasoline powered car the Takuri it examines early Japanese inventors and automotive conditions in Japan the arrival of Japanese cars in California in the late 1950s consumer and media reactions to Japanese manufacturers what obstacles they faced initial sales and how the cars gained popularity through shrewd marketing Toyota Honda Datsun Nissan Mazda Subaru Isuzu and Mitsubishi are profiled individually from their origins through the present An examination follows of the forced cooperation between American and Japanese manufacturers the present state of the industry in America and the possible future of this union most importantly in the race for a more environmentally sound vehicle **Medi-gap** United States.
