Surviving Suicide Reanne Goes, 2013-01-12 The purpose of me wishing to share my experiences on this journey of grief was to firstly outline some of the emotions and feelings you can go through after losing someone you love to suicide All of these feelings of guilt regret abandonment unworthiness and insurmountable sadness are all just stages in the grieving process It is important to share your story and still talk about the one who passed to keep them alive in your heart This will make you feel closer to them and comfort you in your grief You will also draw in people who will be able to support you through this grieving process who have had similar experiences I also wanted this to be an insight into one young experienced man's life that lived his life to the full and lived balancing on a wire It was the drugs in the end that took his life He took drugs to hide the pain of his past and like most people who indulge to cover up his true feelings The demons of his past were eating him up like a disease Adam had a full life he was intelligent and a streetwise well travelled loving man However it was depression that sent him into a spiral which ultimately led to his death After Adam died people would say to me things like Did you see this coming Were there any signs I knew that there was something wrong and his downward spiral happened way too quickly for me to have any control over the outcome I could feel it taking over and I did not know what to do One minute he was partying with friends then the

car accident and then the downward spiral which led to his demise Within a week I watched him go through so many negative mixed emotions He was anxious incredibly distressed crying angry and by the middle of the week he transgressed into a very solemn dark and very quiet mood I felt helpless to console him Adam was the type of man who kept his troubles to himself This obviously did not help Depression is a very serious illness that can be so debilitating for the sufferer that they see no other way out but to end their lives There are many contributing factors that can lead to depression and unfortunately over two million Australians suffer from this illness coupled with anxiety and sometimes alcohol and or drug abuse Out of these sufferers 10 per cent will take their own life every year If people are abusing drugs and alcohol there is a reason The only reason these vices are abused is to mask pain and hide behind it Statistically men take their own life four times more than women Men tend to suppress their true emotions when under stress and do not talk openly as much as women do about what is troubling them It does not have to be this way as fortunately now there is more and more government support provided and groups that we can join to share our troubles and concerns My message to anyone who reads this book is to be there for your friends and family More importantly be there for yourself so that we can all be strong and support each other in times of need We all play an important role in someones life and we should be there for each other Be well live and love

Sham Steve Salerno, 2006-09-26 Self help To millions of Americans it seems like a godsend To many others it seems like a joke But as investigative reporter Steve Salerno reveals in this groundbreaking book it s neither in fact it s much worse than a joke Going deep inside the Self Help and Actualization Movement fittingly the words form the acronym SHAM Salerno offers the first serious expos of this multibillion dollar industry and the real damage it is doing not just to its paying customers but to all of American society Based on the author s extensive reporting and the inside look at the industry he got while working at a leading lifestyle publisher SHAM shows how thinly credentialed experts now dispense advice on everything from mental health to relationships to diet to personal finance to business strategy Americans spend upward of 8 billion every year on self help programs and products And those staggering financial costs are actually the least of our worries SHAM demonstrates how the self help movement s core philosophies have infected virtually every aspect of American life the home the workplace the schools and more And Salerno exposes the downside of being uplifted showing how the empowering message that dominates self help today proves just as damaging as the blame shifting rhetoric of self help s Recovery movement SHAM also reveals How self help gurus conduct extensive market research to reach the same customers over and over without ever helping them The inside story on the most notorious gurus from Dr Phil to Dr Laura from Tony Robbins to John Gray How your company might be wasting money on motivational speakers executive coaches and other quick fixes that often hurt quality productivity and morale How the Recovery movement has eradicated notions of personal responsibility by labeling just about anything from drug abuse to sex addiction to shoplifting a dysfunction or disease How Americans blindly accept that twelve step programs offer the only hope of treating addiction when in fact these programs can do more harm than good How the self help movement inspired the disastrous emphasis on self esteem in our schools How self help rhetoric has pushed people away from proven medical treatments by persuading them that they can cure themselves through sheer application of will As Salerno shows to describe self help as a waste of time and money vastly understates its collateral damage And with SHAM the self help industry has finally been called to account for the damage it has done Also available as an eBook
