Dunn, Michael Cowlin, 2009-11-06 Building Law Encyclopaedia is a concise and authoritative reference providing information in reasonable depth on an extensive number of legal terms, principles, phrases and issues that are commonly encountered in the construction industry. Most standard contracts are referred to including the current suite of JCT Contracts SBC IC ICD MW MWD as well as ACA PPC 2000 GC Works 1 and NEC. In addition, some contracts which are theoretically out of date but which are still in common use are also covered. **Irish Titan, Irish Toilers** Scott Molloy, 2008 In 1847 Joseph Banigan, an Irish Potato Famine refugee, established himself in Rhode Island as an entrepreneur. This was a time when "No Irish Need Apply" signs abounded and discrimination against the Irish and other immigrants institutionalized in the constitution of his adopted state hindered voting and other human rights. Bucking this trend and belying his humble origins, Banigan succeeded spectacularly in the emerging local rubber footwear industry, becoming the president of the United States Rubber Company, one of the nation's major cartels and New England's first Irish Catholic millionaire. Backed by primary and secondary research on two continents, Molloy's inquiry into Banigan's notoriety and success singularly codifies and elucidates the Irish American experience during this critical period in American labor history.

**Varieties of Capitalism, Corporate Governance and Employees** Shelley Marshall, Ian M. Ramsay, Richard Mitchell, 2008 We live in a corporate world in which powerful business corporations shape and influence the activities of nation states, their national economies and their social relations. But what is it that moulds the activities of the corporations themselves? Do some societies have styles of regulation that enable corporations to

operate freely in the pursuit of certain interests where others are more constrained And if so are Australian companies more inclined to pursue the financial interests of shareholders and owners at the expense of employees and creditors Corporate governance may be guided in the pursuit of particular interests by many influences including law politics capital and labour and other pressure groups How these competing pressures balance out varies enormously from state to state Bringing together the original research by lawyers political economists and industrial relations scholars Varieties of Capitalism Corporate Governance and Employees is a first Australian contribution to these complex issues SEC Docket United States.
