Leaves from the Tree of Life Lee Heathman, Mildred A. Tillotson, 2004. In a modern world congested with medical information, it can come as a surprise that most people are ignorant of basic health principles. While technology advocates advanced nutrition supplements and formulas, we have overlooked what God has created in perfection. *Leaves from the Tree of Life* is a practical manual based on Biblical principles. Eight chapters are devoted to exploring the basic laws of health: Nutrition, Exercise, Water, Sunlight, Temperance, Air, Rest, and Trust in Divine Power, and showing how these principles can help enhance and lengthen the individual's life. Extensive research was consulted when composing this manual, yet it is written in a simple, understandable format with specific ways to make these principles into reality, including 79 pages of nutritious recipes. Edited by Milton G. Crane, M.D., FACP, Director of Medical Research at Weimar Institute, this manual has a solid medical basis which sets it above many other publications of its kind. I am very pleased with this book; it will be a great asset in working with your students and in presenting your seminars. I believe it will fill a much-needed spot in the education of lay persons in the basic laws of health. It is well documented and very nicely laid out. Agatha Thrash, M.D., Uchee Pines Institute. *Leaves from the Tree of Life* is a manual of basic health principles based on the 8 Laws of Health. The author explores God's plan for feeling better and living longer and offers practical tips to promote a healthy lifestyle, including exercise, diet, and spirituality. Also included are many nutritious recipes. *Kashrus*, 1998.
