America According to Colbert S. McClenen, 2011-11-30 America According to Colbert Satire as Public Pedagogy post 9 11 argues that in contrast to the anti intellectualism the sensationalism and the punditry that tend to govern most mass media today Stephen Colbert's program offers his audience the opportunity to understand the context through which most news is reported and to be critical of it Overload Bob Schieffer, 2017-10-01 From the explosion of fake news to the challenges of the 24 hour news cycle legendary journalist Bob Schieffer examines political journalism today and those who practice it Based on interviews with over 40 media leaders Schieffer provides an inside look at the changing role of media and asks whether today's citizens are more informed or just overwhelmed Digital Minimalism Cal Newport, 2019-02-05 A New York Times Wall Street Journal Publishers Weekly and USA Today bestseller Newport is making a bid to be the Marie Kondo of technology someone with an actual plan for helping you realize the digital pursuits that do and don't bring value to your life Ezra Klein Vox Minimalism is the art of knowing how much is just enough Digital minimalism applies this idea to our personal technology It's the key to living a focused life in an increasingly noisy world In this timely and enlightening book the bestselling author of Deep Work introduces a philosophy for technology use that has already improved countless lives Digital minimalists are all around us They're the calm happy people who can hold long conversations without furtive glances at their phones They can get lost in a good book a woodworking project or a leisurely morning run They can have fun with friends and family without the obsessive urge to document the experience They stay informed about the news of the day but don't feel overwhelmed by it They don't experience fear of missing out because they already know which activities provide them meaning and satisfaction Now Newport gives us a name for this quiet movement and makes a persuasive case for its urgency in our tech saturated world Common sense tips like turning off notifications or occasional rituals like observing a digital sabbath don't go far enough in helping us take back control of our technological lives and attempts to unplug completely are complicated by the demands of family friends and work What we need instead is a thoughtful method to decide what tools to use for what purposes and under what conditions Drawing on a diverse array of real life examples from Amish farmers to harried parents to Silicon Valley programmers Newport identifies the common practices of digital minimalists and the ideas that underpin them He shows how digital minimalists are rethinking their relationship to social media rediscovering the pleasures of the offline world and reconnecting with their inner selves through regular periods of solitude He then shares strategies for integrating these practices into your life starting with a thirty day digital declutter process that has already helped thousands feel less overwhelmed and more in control Technology is intrinsically neither good nor bad The key is using

it to support your goals and values rather than letting it use you This book shows the way

The Collapse of Western Civilization Naomi Oreskes,Erik M. Conway,2014-07-01 The year is 2393 and the world is almost unrecognizable Clear warnings of climate catastrophe went ignored for decades leading to soaring temperatures rising sea levels widespread drought and finally the disaster now known as the Great Collapse of 2093 when the disintegration of the West Antarctica Ice Sheet led to mass migration and a complete reshuffling of the global order Writing from the Second People s Republic of China on the 300th anniversary of the Great Collapse a senior scholar presents a gripping and deeply disturbing account of how the children of the Enlightenment the political and economic elites of the so called advanced industrial societies failed to act and so brought about the collapse of Western civilization In this haunting provocative work of science based fiction Naomi Oreskes and Eric M Conway imagine a world devastated by climate change Dramatizing the science in ways traditional nonfiction cannot the book reasserts the importance of scientists and the work they do and reveals the self serving interests of the so called carbon combustion complex that have turned the practice of science into political fodder Based on sound scholarship and yet unafraid to speak boldly this book provides a welcome moment of clarity amid the cacophony of climate change literature
