Jeffries,Pamela Slaven-Lee,2024-01-09 Authored by expert simulation researchers educators nurse practitioner faculty and clinicians A Practical Guide for Nurse Practitioner Faculty Using Simulation in Competency Based Education looks at topics related to simulation design development and implementation for nurse practitioner and other graduate level nursing programs **Twenty Years of Education Transformation in Gauteng 1994 to 2014** Felix Maringe,Martin

Prew,2015-05-05 Twenty Years of Education Transformation in Gauteng 1994 to 2014 An Independent Review presents a collection of 15 important essays on different aspects of education in Gauteng since the advent of democracy in 1994 These essays talk to what a provincial education department does and how and why it does these things whether it be about policy resourcing or implementing projects Each essay is written by one or more specialist in the relevant focus area The book is written to be accessible to the general reader as well as being informative and an essential resource for the specialist reader It sheds light on aspects of how a provincial department operates and why and with what consequences certain decisions have been made in education over the last 20 turbulent years both nationally and provincially There has been no attempt to fit the books chapters into a particular ideological or educational paradigm and as a result the reader will find differing views on various aspects of the Gauteng Department of Educations present and past We leave the reader to decide to what extent the GDE has fulfilled its educational mandate over the last 20 years *Merging Numeracy with Literacy Practices for Equity in Multilingual Early Year Settings* Robyn Jorgensen,Mellony Graven,2022-01-01 This book draws on both in and out of school literacy practices with teachers and families to enhance the numeracy of early learners It provides highly illustrative

exemplars targeted for learners up to approximately eight years of age whose home language differs from the language of instruction. It identifies the challenges faced by these learners and their families and shares ways of building both literacy and numeracy skills for some of the vulnerable learners nationally and internationally. The book shares the outcomes and strategies for teaching mathematics to early years learners and highlights the importance of literacy practices for learners for whom the language of instruction is different from their home language. Readers will gain a practical sense of how to create contexts, classrooms and practices to scaffold these learners to build robust understandings of mathematics.

Preventive audiology Katijah Khoza-Shangase, 2023-03-01. This book is an original scholarly book that introduces the concept of preventive audiology with a specific focus on the African context which is in line with the South African re-engineered primary healthcare strategy as well as the World Health Organisation's approach. The book reflects on contextually relevant and responsive evidence-based perspectives grounded in an African context on preventive audiology in four major ear and hearing burdens of disease within the South African context: 1. early hearing detection and intervention, 2. middle ear pathologies, 3. ototoxicity and 4. noise-induced hearing loss. The book represents innovative research seen from both a South African and global perspective. It offers new discourse and argues for a paradigm shift in how audiology is theorised and performed, particularly in low and middle income country contexts. The goal of this book is to motivate a paradigm shift in how the ear and hearing care is approached within this low and middle income country context while arguing for Afrocentric best practice evidence that leads to next practice.

Higher Education Classrooms as Places for Inquiry: Stories and Methods from Practitioner Researchers Logan, Stephanie R., Lyons, Emily, 2025-07-29. In higher education classrooms, the transmission of knowledge is vital in intellectual growth. In this era of rapid social and global change, fostering a culture of inquiry in a classroom is essential to engage students. These learning environments encourage students to question assumptions and engage in diverse perspectives. Higher education classrooms can be intentionally designed and facilitated as dynamic spaces for inquiry, empowering students to take ownership of their learning and contribute meaningfully to academic and societal discourse. *Higher Education Classrooms as Places for Inquiry: Stories and Methods from Practitioner Researchers* explores similar ethical, epistemological and political issues raised across different research genres. This book presents an array of practitioner research genres from action participatory action research, teacher research, self-study, the scholarship of teaching and learning and more. Covering topics such as digital learning, practitioner inquiry and teaching experiences, this book is an excellent resource for educators, administrators, policy makers, pre-service educators, researchers, academicians and more.
