Stratospheric Ozone Damage and Legal Liability Lisa Elges,2016-12-19 While government enforcement of laws and

regulations to control the production of chlorofluorocarbons in 1987 has been hailed as exemplifying the precautionary principle for almost two decades US companies failed to take precautionary measures to prevent chemical emissions despite the probable risk of stratospheric ozone loss As a result human harms in the form of skin cancer have reached epidemic proportions globally and in the United States where today one person dies every hour from skin cancer This book reviews U S laws regulations and policies as well as case law regarding similar toxic tort cases to consider whether companies can and should be held legally liable under tort common law theories and related tort justice theories for having contributed to increased risks of skin cancer

Concept Clarity with Detailed Answers Crisp Revision with Mind Maps Revision Notes **Businessmen, Clientelism, and Authoritarianism in Egypt** Safinaz El Tarouty,2016-04-29 After the ousting of former Egyptian President Hosni Mubarak in February 2011 much debate surrounded the reasons for the former regime s longevity and its collapse Here Safinaz El Tarouty provides an original contribution to the study of authoritarianism in Egypt by focusing on the role of businessmen in authoritarian survival As the regime intensified neoliberal economic reforms that led to social deprivation and frustration among increasing numbers of Egyptian citizens they co opted businessmen in order to defuse challenges and buttress the regime constructing a new political economy of authoritarianism Extending the existing literature on clientelism El Tarouty creates a typology of regime businessmen relations to describe the multiple mechanisms of co option in the context of economic liberalization Ultimately though these businessmen proved too narrow a constituency to provide legitimacy to the regime and in fact formed one of the reasons for its collapse

Deepening Neoliberalism, Austerity, and Crisis Julien Mercille,Enda Murphy,2015-07-07 From bank bailouts to austerity Europe s and Ireland s response to the economic crisis has been engineered specifically to shift the burden of paying for the crisis onto ordinary citizens while investors financiers bankers and the privileged are protected The authors expose the class based nature of Ireland s crisis resolution

In China's Wake Nicholas Jepson,2020-01-07 In the early 2000s Chinese demand for imported commodities ballooned as the country continued its breakneck economic growth Simultaneously global markets in metals and fuels experienced a boom of unprecedented extent and duration Meanwhile resource rich states in the Global South from Argentina to Angola began to advance a range of new development strategies breaking away from the economic orthodoxies to which they had long appeared tied In China s Wake reveals the surprising connections among these three phenomena Nicholas Jepson shows how Chinese demand not only transformed commodity markets but also provided resource rich states with the financial leeway to set their own policy agendas insulated from the constraints and pressures of capital markets and multilateral creditors such

as the International Monetary Fund He combines analysis of China led structural change with fine grained detail on how the boom played out across fifteen different resource rich countries Jepson identifies five types of response to boom conditions among resource exporters each one corresponding to a particular pattern of domestic social and political dynamics Three of these represent fundamental breaks with dominant liberal orthodoxy and would have been infeasible without spiraling Chinese demand Jepson also examines the end of the boom and its consequences as well as the possible implications of future China driven upheavals Combining a novel theoretical approach with detailed empirical analysis at national and global scales In China's Wake is an important contribution to global political economy and international development studies

Ismael, Jacqueline S. Ismael, 2015-02-20 Much has been written about the events surrounding the 2003 Anglo American invasion of Iraq and its aftermath especially about the intentions principles plans and course of action of US policy but much less attention has been given to the consequences of US policy on Iraqi political and social development This book provides an in depth analysis of the impact of US policy on the social and political development of Iraq in the twenty first century It shows how not just the institutions of the state were destroyed in 2003 leaving the way open for sectarianism but also the country's cultural integrity political coherence and national oriented economy It outlines how Iraq has been economically impoverished assessing the appalling situation which ordinary people including women and children have endured not just as a result of the 2003 war but also as a consequence of

the 1991 war and the sanctions imposed in the following years The book argues that the social political and cultural ruin that accompanied the Iraq war was an absolute catastrophe that the policies which had such adverse effects were the foreseeable consequences of deliberate policy choices and that those responsible continue to evade being made accountable

Education Is Not an App Jonathan A. Poritz, Jonathan Rees, 2016-08-12 Whilst much has been written about the doors that technology can open for students less has been said about its impact on teachers and professors Although technology undoubtedly brings with it huge opportunities within higher education there is also the fear that it will have a negative effect both on faculty and on teaching standards Education Is Not an App offers a bold and provocative analysis of the economic context within which educational technology is being implemented not least the financial problems currently facing higher education institutions around the world The book emphasizes the issue of control as being a key factor in whether educational technology is used for good purposes or bad purposes arguing that technology has great potential if placed in caring hands Whilst it is a guide to the newest developments in education technology it is also a book for those faculty technology professionals and higher education policy makers who want to understand the economic and pedagogical impact of technology on professors and students It advocates a path into the future based on faculty autonomy shared governance and concentration on the university's traditional role of promoting the common good Offering the first critical in depth assessment of the political economy of education technology this book will serve as an invaluable guide to concerned faculty as well as to anyone with an interest in the future of higher education

Democratizing Legal Services Laura Snyder, 2016-10-11 We live in a law thick world For individuals and organizations in both the public and private sectors navigating the large number of complex laws rules institutions and procedures that pervade American life is virtually impossible without some assistance Some argue that there are too many lawyers Others argue that the unmet need for legal services is so high that it constitutes a human rights crisis This book exposes why it is easy to access legal services for some while it is virtually impossible for others and why some lawyers have successful careers but others cannot This book argues that the problems plaguing legal services in the US can be only be addressed by a radical overhaul of the rules that govern how legal services may be delivered as well as radical changes to who exercises the power to make those rules Through interviews with those with experience with alternative legal service providers this book exposes the formidable obstacles that exist along the path to those changes as well as the opportunities that await More information can be found at www.notjustforlawyers.com
