The Struggle for a Multilingual Future Christina P. Davis (Anthropologist), 2020 In *The Struggle for a Multilingual Future* Christina Davis examines the tension

between ethnic conflict and multilingual education policy in the linguistic and social practices of Sri Lankan minority youth Facing a legacy of post independence language and education policies that were among the complex causes of the Sri Lankan civil war 1983 2009 the government has recently sought to promote interethnic integration through trilingual language policies in Sinhala Tamil and English in state schools Integrating ethnographic and linguistic research in and around two schools during the last phase of the war Davis s research shows how despite the intention of the reforms practices on the ground reinforce language based models of ethnicity and sustain ethnic divisions and power inequalities By engaging with the actual experiences of Tamil and Muslim youth Davis demonstrates the difficulties of using language policy to ameliorate ethnic conflict if it does not also address how that conflict is produced and reproduced in everyday talk *Innovators* David W. Galenson, 2025-01-21 Some innovators are luminous shooting stars think Pablo Picasso Albert Einstein Sylvia Plath Bob Dylan Steve Jobs who make bold leaps early and suddenly then lose their creativity Others are late bloomers Paul Cezanne Charles Darwin Virginia Woolf Alfred Hitchcock Warren Buffett who show little early promise but spend long periods doggedly pursuing distant goals and attain greatness in old age By analyzing the careers of scores of great innovators this book reveals systematic differences in the motivations and methods of these two types and their very different patterns of creativity over the life cycle The result is a new and deeper unified understanding of the sources of human creativity

*Mind over Monsters* Sarah Rose Cavanagh, 2023-05-02 An investigation into the mental health crisis affecting young adults today and an impassioned argument for creating learning environments characterized both by compassion and challenge Alarming statistics in recent years indicate that mental health problems like depression and anxiety have been skyrocketing among youth To identify solutions psychologist and professor Sarah Rose Cavanagh interviews a roster of experts across the country who are dedicating their lives to working with young people to help them actualize their goals and highlights voices of college students from a range of diverse backgrounds Cavanagh also brings the reader on an invigorating tour of pedagogical neuroscientific and psychological research on mental health one that involves her own personal journey from panic to equilibrium The result of these combined sources of inquiry indicates that to support youth mental health we must create what Cavanagh calls compassionate challenge first we need to cultivate learning and living environments characterized by compassion and then we need to guide our youth into practices that encourage challenge helping them face their fears in an encouraging safe and even playful way *Mind over Monsters* is a must read for teachers administrators parents and young people themselves

*Weird* Olga Khazan, 2020-04-07 Learn why the concept of weird is being reclaimed and turned into a badge of honor used to show how being different culturally socially physically or mentally can be a person's greatest strength Most of us have at some point in our lives felt like an outsider sometimes considering ourselves too weird to fit in Growing up as a Russian immigrant in West Texas Olga Khazan always felt there was something different about her This feeling has permeated her life and as she embarked on a science writing career she realized there were psychological connections between this feeling of being an outsider and both her struggles and successes later in life She decided to reach out to other people who were unique in their environments to see if they had experienced similar feelings of alienation and if so to learn how they overcame them *Weird* is based on in person interviews with many of these individuals such as a woman who is professionally surrounded by men a liberal in a conservative area and a Muslim in a predominantly Christian town In addition it provides actionable insights based on interviews with dozens of experts and a review of hundreds of scientific studies *Weird* explores why it is that we crave conformity how that affects

people who are different and what they can do about it First the book dives into the history of social norms and why some people hew to them more strictly than others Next Khazan explores the causes behind and the consequences of social rejection She then reveals the hidden upsides to being weird as well as the strategies that people who are different might use in order to achieve success in a society that values normalcy Finally the book follows the trajectories of unique individuals who either decided to be among others just like them to stay weird or to dwell somewhere in between Combining Khazan s own story with those of others and with fascinating takeaways from cutting edge psychology research Weird reveals how successful individuals learned to embrace their weirdness using it to their advantage     Proceedings of First International Conference on Computing, Communications, and Cyber-Security (IC4S 2019) Pradeep Kumar Singh,Wiesław Pawłowski,Sudeep Tanwar,Neeraj Kumar,Joel J.
